- l) Provisions for regulating the zone, locations, height, number of stories, size of buildings, other structures, open space and use of buildings and other matters may be prescribed.

Manapparai Local Planning Area:

1.02 In exercising the power under section 10 (1) (b) of the Town and Country Planning Act of 1971, the Government had published the intention of declaring Manapparai Local Planning Area in G.O.Ms.No. 2174 RD&LA dated 1-10-73 (Annexure A) and the notification had been confirmed under section 10 (4) in G.O.Ms.No. 685 RD&LA dated 18-8-74 (Annexure B)

1.03 Manapparai Municipal town limit had been declared as Manapparai Local Planning Area. However, as per the confirmed notification the following revenue villages were included within Manapparai Local Planning Area.

<u>Sl. No.</u>	<u>Name of Villages</u>	<u>Village No.</u>
1.	Bevalur	68
2.	Kannudayanpatti	67
3.	Uailampatti	61
4.	Inam Kalingapatti	101

1.04 Later on the Government, in G.O. No. 1059 RD&LA dated 19-4-74 (Annexure C) excluded three villages namely Kannudayanpatti, Uailampatti and Inam Kalingapatti from municipal limit. Since the exclusion of the three villages from Manapparai limit not taken into account while Local Planning Area notification was confirmed and since Manapparai Local Planning Area is considered as single planning area, proposal had been submitted to Government to revise the Manapparai Local Planning Area notification<sup>after</sup> by deleting the three villages from notification.

1.05 In exercising the provisions made in section 11 (1) and 11 (3) of the Act, the Government in G.O. No. 650 RD&LA dated 8-4-75 (Annexure 'D') appointing the Manapparai 'Municipal Council' as the Local Planning Authority and the Executive Authority of the municipality as the Executive to the authority of local planning authority.

1.06 Extension of time had been granted upto 31-3-85 in the letter of the Director of Town and Country Planning Roc No. 7042/84-MP2 dt. 9.4.84 (Annexure E) to prepare "The map" indicating the present 'land and building use' as per section 16 of the Act.

1.07 The Local Planning Authority had thus prepared a map under section 16 of the Act showing the present use of land and building and adopted the map in Local Planning Authority resolution No. \_\_\_\_\_ dated \_\_\_\_\_ (Annexure F)

## Chapter II - Location

2.01 Manapparai, a second grade municipal town is located 40 kilometre towards south western direction from Tiruchirappalli on the Madras - Dindugul trunk route of National Highways 45. The strategic location of the town to the nearby town could be seen from the map No. 1. The town is well connected by roads to the surrounding areas. It has a railway station too.

2.02 Manapparai is situated at  $10^{\circ}57'$  northern latitude and  $78^{\circ}26'$  eastern longitude. Ariyalur river flows through the middle of the town. The town extends all sides with the continuous level agricultural land. The town population, as per 1981 census, was 27,242 constitutes of 13946 males and 13296 females. The town extends an area of 20.85 sq. km.

### Minerals and soils:

2.03 Economically exploitable minerals are not found in this town. The soils of this region is generally classified as red soil. It is mostly suitable for dry crop namely chillies, cotton and groundnuts which are the main crop of the region.

### Climate:

2.04 The climate is hot during the summer months and moderate during the winter. The town experiences occasional summer rain fall.

### Rainfall:

2.05 The town gets its rainfall mostly during the north eastern monsoon during the month of October to December. The average rainfall for the town is around 850 mm.

Chapter III - Population and land use:

3.01 Tamil Nadu State stands second in rank having high percentage of urban population amongst other States of India. Manapparai is an urban centre containing a population of 27242 as per 1981 census. Since there were changes in the urban boundary during the years 1966 and 1974 an adjustment is done in arriving the urban population for 1971. A comparative study of decadal variation of population with that of Tiruchy - Thanjavur Region and Tiruchy district covering from the year 1951 is given in table No. 3.1

Table 3.1 - Percentage of decadal variation of population

Decade	Region	District	Manapparai town
1941 - 51	31.26	13.48	64.63
1951 - 61	16.76	8.36	32.77
1961 - 71	28.16	20.65	70.86
1971 - 81	-	6.51	36.93

3.02 While comparing the percentage, decadal variation of population of the Region and District the population increase for the town is very much at higher rate, that may be due to the location of the town near Tiruchirapalli city.

3.03 The population of Manapparai town which was only 5327 in 1941, has risen to 27242 in 1981 means it is multiplied into five times in 40 years of period. This indicate that the migration to the town is very much high.

3.04 The population increase of Manapparai town from 1941 to 1981 is given in table 3.2.

Table 3.2: Population increase

Year	Population	Decade growth	Percentage variation
1941	5327	--	--
1951	8770	3443	64.63
1961	11644	2874	32.77
1971	19895	8251	70.86
1981	27242	7347	36.93

Sex and age structure:

3.05 The table 3.3 given below shows the number of female population for every 1000 male population.

Table 3.3: Female population for 1000 male population

Year	Males	Females	No. of females per 1000 males
1941	2724	2602	955
1951	4595	4275	951
1961	6038	5606	928
1971	10333	9562	925
1981	13946	13296	953

3.06 The female population is very much lower than the male population. This may be due to the male population alone shifting from rural areas towards urban leaving the family in rural areas only.

3.07 Age wise distribution of population are given in table No. 3.4. A study on it indicates that nearly 67.08 percentage of the population are in the age group between 15 to 59 which means that 15,552 persons constitutes the working population of the town. 38.78 percentage of population comes under age below 14.

Table No. 3.4: Age wise break up 1981

Age group	Male	Percen tage to total popu lation	Female	Percen tage to total popu lation	Total	Percen tage to total popu lation
0 - 14	5394	19.8	5170	18.98	10564	38.78
15 - 29	3448	12.66	3627	13.32	7075	25.98
30 - 59	4522	16.59	3955	14.51	8477	31.10
60 and above	582	2.14	544	2.00	1126	4.14
Total	13946	51.19	13296	48.81	27242	100.00

Literacy:

3.08 As per 1971, the percentage of literates to the total population is 55.82. It is on the higher rate when compared to that of State or Region where it is around to 40 percent only.

Occupation:

3.09 A comparative statement of workers participation rate for the year 1961 and 1971 are given in the table No. 3.5. There existed a decrease in workers participation rate in 1971 over 1961. However there had been an increase in trend for male workers participation rate.

Table No. 3.5 : PERCENTAGE OF WORKERS TO POPULATION:

Year	Total population	Total No. of workers		Male workers		Female workers	
		Total	Percentage to population	Total	Percentage to workers	Total	Percentage to workers
1961	11644	4081	35.05	3388	82.82	701	17.18
1971	19895	5827	29.29	5375	92.24	452	7.76

3.10 The workers participation in the three sectors of employment as per 1971 census are tabulated in table 3.6. When about 51.32 percent of workers employed in tertiary sector, only 27.40 percent of workers employed in secondary sector. Almost equal percentage that is 21.28 percent are employed in primary sector also.

Table 3.6: SECTORAL EMPLOYMENT 1971

Sectors	Workers employed	Percentage to total workers	Percentage to total population
Primary	1239	21.28	6.23
Secondary	1597	27.40	8.03
Tertiary	2991	51.32	15.03
Total	5827	100.00	29.29

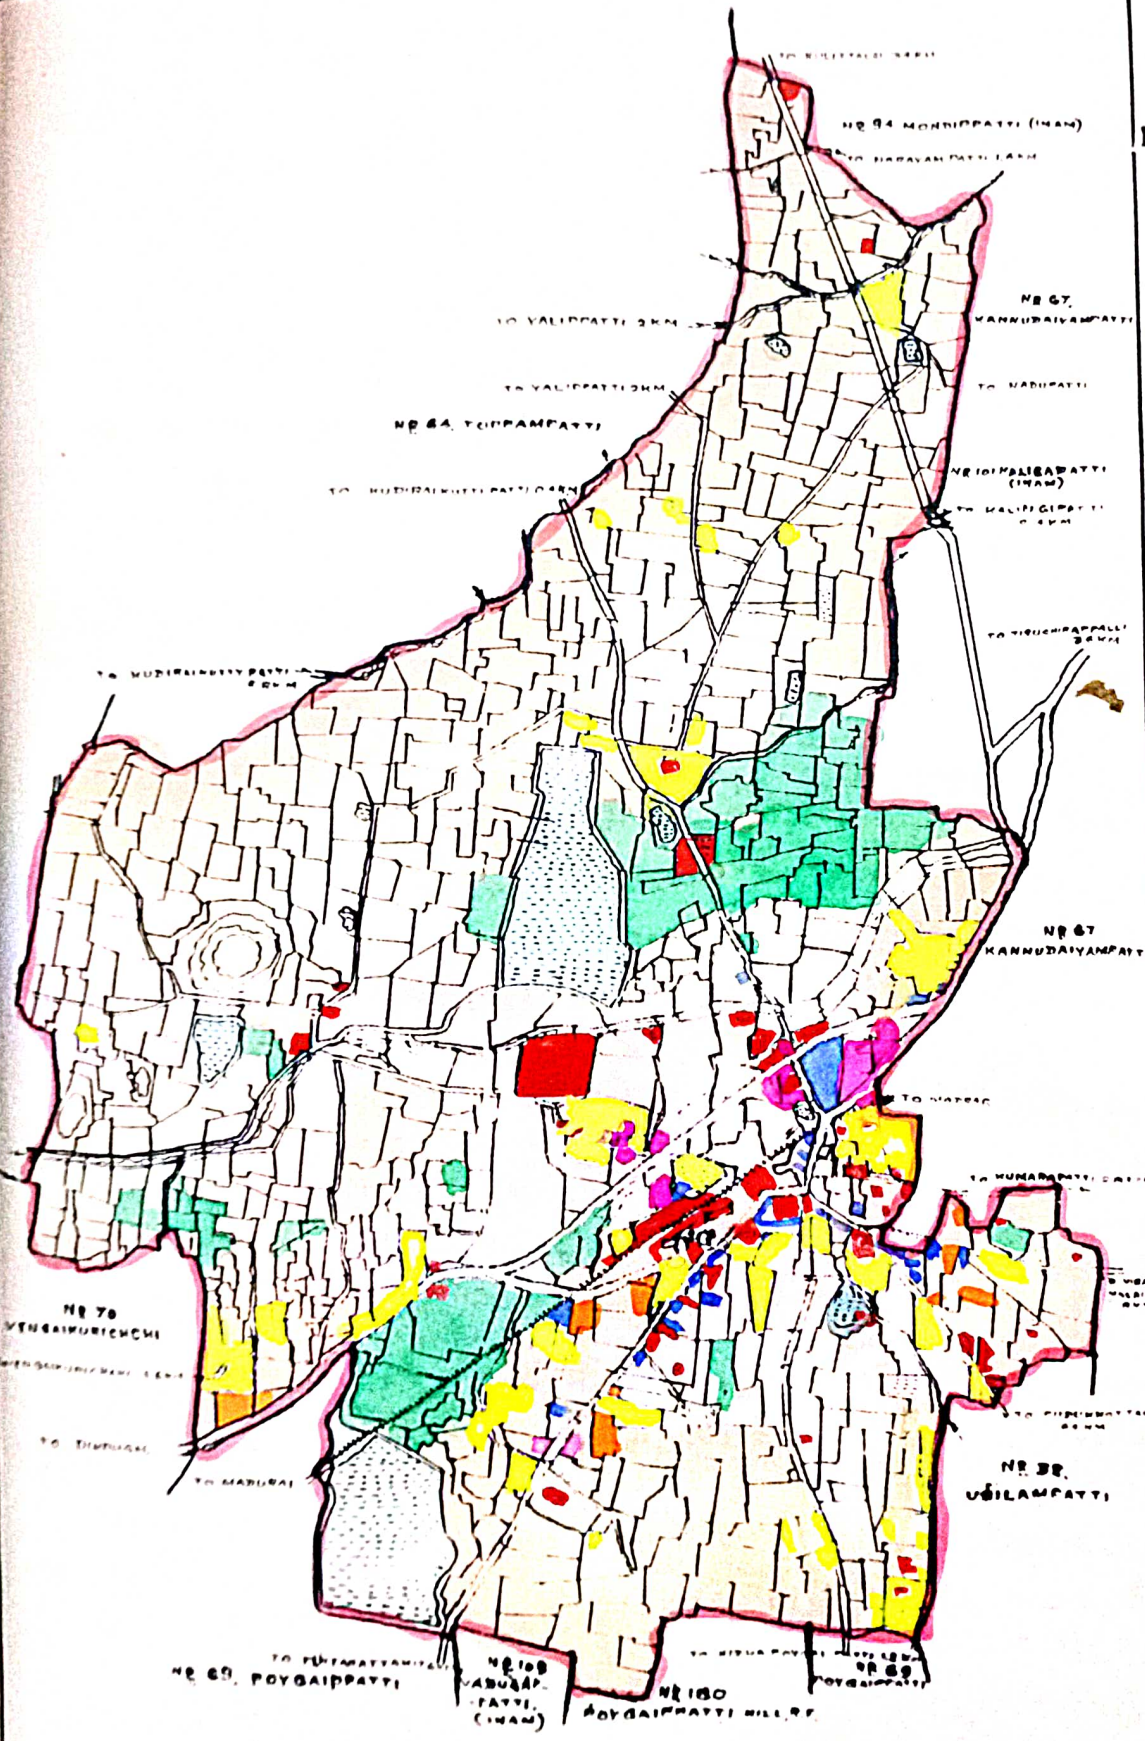

Land Use:

3.11 Manapparai Local Planning area comprises of 2085 hectares and the utilisation of land at present and broadly classified according to their uses of land and is given in table 3.7. The distribution of present land and building use may be seen in the map No. 2.

within the town and the student community goes to Tiruchy for their collegiate education.

3.14 One Government hospital and one E.S.I. hospital serves for the public. In addition there are six private nursing homes with 20 beds in total. There are number of private clinics also established in the town.

3.15 Manapparai town is located on the National Highway No. 45 Madras - Capecomerin Road. It is also an important railway station on Tiruchy Madurai metre gauge railway line. In addition it is also well connected by roads to the nearby towns and thereby buses ply in all directions of the town. The circulation system of roads are shown in map No. 3.

3.16 Because of its strategic location, Railway station and Taluk and Panchayat Union headquarter town, people daily commute to this town for official or commercial purposes. Manapparai weekly shandy is an important one for its surrounding area and cattles are brought to this shandy from far off places on the day for sales.

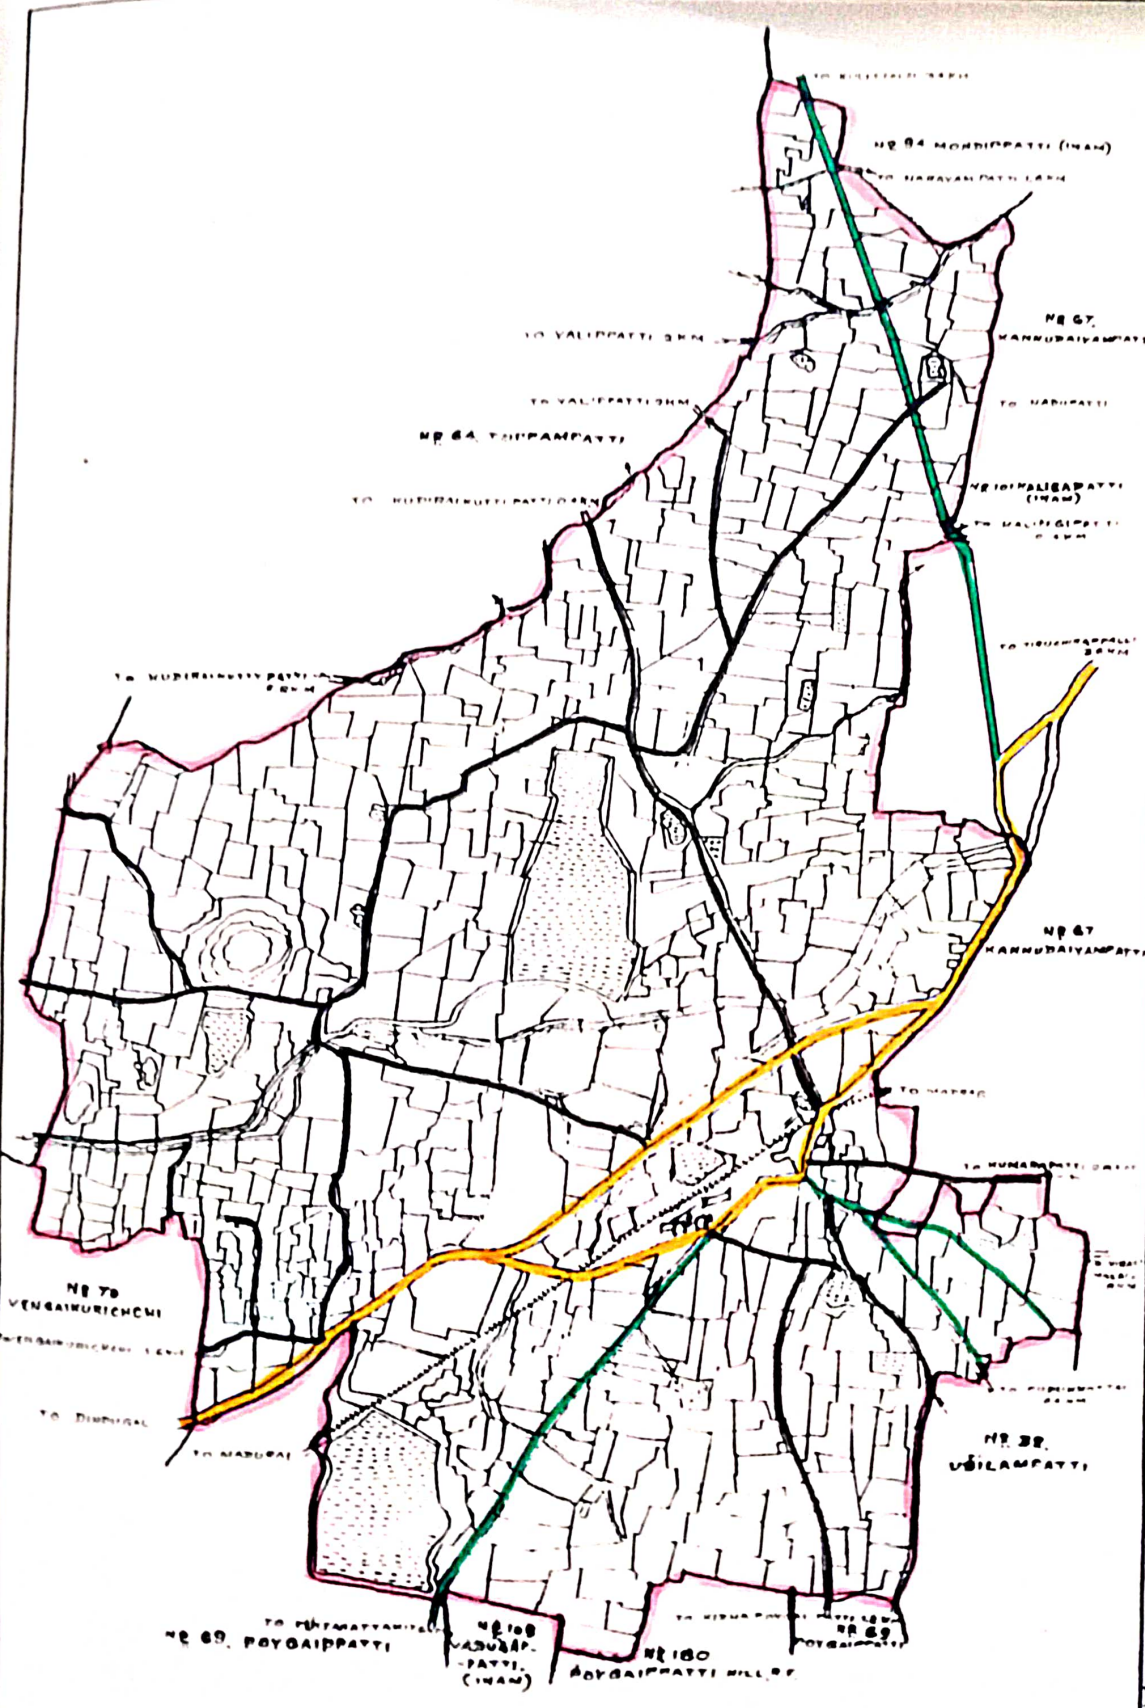

3.17 Water supply for the town is distributed from 17 overhead tanks and house connections given is 41%. For the rest of the people public fountains were provided. The people of the town draw water from public and private wells too.

3.18 Only open drainage system is in existence and pose many health problems.

Chapter IV - Analysis and assessment:

4.01 The previous chapters have shown the growth potentials in existence and the land utilisation with functions of the town. It also reveals the growth of population for different decades. In this Chapter an attempt is made to analyse on the potentialities, needs and limitations within which they are governed.

4.02 The planning period for the ~~perspective~~ plan is taken as 20 years from 1981 which forms the base year, the last census year. As such the planning year suggested for this master plan is the period ends with the year 2001.

4.03 The population figures and decade variation for Manapparai Local Planning Area for previous decades since 1941 is given in table No. 3.2. The population projection for successive two decades by statistical methods are worked out and the expected population for the year 1991 and 2001 are tabulated in table No. 4.1.

Table No. 4.1 : Projected population:

Method	1991	2001
1. Parabolic curve	31054	49742
2. Geometric curve	41155	62113
3. Arithmetical increase	32120	58198
4. Incremental increase	34021	42101

4.04 Among the population figures obtained by statistical projections, the higher value as obtained in Geometrical ratio method is 62113 in the year 2001. However exact prediction of population for future is too difficult since the trend of migration may not be uniform. However Directorate of Town and Country Planning Department studied the future population for all urban centres in Tamil Nadu State and the same had been communicated to the Regional Offices in Roc No. 7934/83-RP dt.17.7.84.

4.05 According to their projected population, the estimated population for Manapparai urban area is 50,000 in 2001. A similar figure is also obtained by parabolic curve method. Hence 50,000 population is taken as the future population of the Local Planning Area for the year 2001 and the Master Plan is further worked out.

4.06 Assuming that there may not be any change in the percentage of population in different age groups for another two decades, the estimated population are grouped according to their ages and the same is tabulated in table 4.2.

Table 4.2: Age Group population

Age group	Persons	
	1991	2001
0 - 14	13300	19500
15 - 19	3080	4500
20 - 24	3132	3985

Total	35000	50000

4.07 From table 4.2, number of persons in age group 15 to 59, which may constitute as working force of the town is 28,800 at 2001. However considering factors such as female population in the age group and their expected employment ratio, the population who may go for higher education and after deducting the employed persons, it is estimated that 14,463 persons for whom the creation of employment opportunities may be needed for before the end of planning period.

4.08 Considering the total development of the local planning area and to keep up the economic stability, it is suggested to have a following employment distribution among the workers.

- Primary sector : 10 percent of the total workers
- Secondary sector : 30 percent of the total workers
- Tertiary sector : 60 percent of the total workers

4.09 From the suggested employment pattern and from the existing employment distribution a need for opening employment in these sectors are worked out and is given in table 4.3.

Table No. 4.3 : Sectoral employment need:

Sector	Estimated workers	Workers as per 1971	Creation of new job needed
Primary	2029	1239	790
Secondary	6087	1597	4490
Tertiary	12174	2991	9183
	20290	5827	14463

Land use requirement:

4.10 Many recent studies conducted by eminent planners, for towns of different size and characteristics revealed that a standard can be evolved for future land requirements comparing the present towns of similar size and characteristics. Based on this, Directorate of Town and Country Planning has suggested for future land requirements for different size of town. The standard suggested for this size of town and the land requirements for various uses are given in table 4.4.

Table No. 4.4: Land requirement for 2001

Use	Standard suggested hectares per 1000 population	Future land required in hectares

Chapter V - Master Plan proposals:

2.01 Manapparai Town had grown without proper planning control. To have effective control over further development Manapparai Local Planning Authority prepared Master Plan for its Local Planning Area. The aim and objectives of the Plan is as follows.

1. To designate appropriate and viable functional units distinguished but complementary to one another.
2. To utilise the every bit of the land for the optimum benefit of the people.
3. To provide necessary facilities and urban infra structures to cater the needs of all the persons, keeping an eye on economy.
4. To provide adequate amenities and open space within the limits of economy.
5. To create a healthy, comfortable and safe environment to live.
6. To improve the existing circulation pattern and transportation system and provide safe and efficient transportation net work.
7. To conserve the Agricultural lands to the possible extent.
8. To create a climate for more industrialisation and improve the city conditions for one and all.

9. To stimulate the commercial and other tertiary activities to create more employment opportunities and improve the earning capacity of one and all.
10. To make the town functionally efficient and economically viable.

5.02 Manapparai, a taluk and Panchayat union headquarters town, houses a population of 27,242 as per 1981. Due to its location factor and link to nearby town, the town may develop in its activities and many administrative offices may be located here. The commercial activities may get flourished. The spinning mill, located on the limit of the town, provide employment for more than 1000 workers. There is possibilities for further development in the activities. Therefore the trend of migration may go up in future years.

5.03 Having in mind the expected increase in population which will be migrating to this town and to avoid any haphazard growth the allocation of land for different uses like Residential, Commercial, Industrial, Educational and Public and Semi-public uses and their locations were duly considered and the Master Plan proposals were drawn to have a compromise land use without any conflict.

5.04 The proposed land uses are shown in map No. 6 and the land required for the proposed uses and the standard requirement are tabulated in table 5.1.

Table No. 2.1 : Proposed land use

Uses	Requirements as per standard in hectares	Land provided for in hectares
Residential	400.00	415.35
Commercial	20.00	40.96
Industrial	100.00	51.88
Educational	0	
Public and Semi Public	280.00	174.28

Residential:

5.05 Considering the present trend of development and the land character, the lands are demarcated for the purpose of residential use. The vacant dry lands within the developed areas, lands abutting the main roads, lands notified as scheme areas are drawn for residential use zone. The total land proposed under this use zone is 415.35 hectares which includes the presently developed residential area also.

5.06 Thus formed residential use zones are zoned as mixed residential zones, a developed core area of the town settlements and the newly developing areas are the primary residential zone. The uses permissible in these zones are given in zoning regulations.

Commercial:

5.07 A central commercial activity zone is proposed between the railway line and bye pass road in continuation of the present weekly market site. In addition commercial functions are proposed as buffer zones between industries and residential zones. 40.96 hectares of land are proposed to be used under this use.

Industrial:

5.08 The Spinning mill now functioning just outside the planning area is the only industry worth mentioning. This provide an employment more than 1000 persons. However in view of accelerating the industrial activity within this town a industrial belt along one side of the bye pass road is suggested for industrial use.

Educational:

5.09 The present educational institution will continue to have its function and wherever possible lands are proposed for its expansion programmes. Since there is no college in this town a large area of land is demarcated for educational use so that college can be started here.

Public and Semi Public:

5.10 Public use zones are demarcated in the existing area itself where public function like railway station and public offices are located.

Agricultural use:

5.11 The rest of the areas where the lands are good for Agriculture and where the development does not warrant its requirements are grouped under Agriculture use zone.

Transport:

5.12 A study of internal road system of the town reveals that there exists a good radial road system. The bye pass road developed near to the town centre forms an another important road. Taking the residential proposals in mind, one 60 feet road is suggested to link Madurai road (via) Thevarankurichi to puduavilai road and another 50 feet link road is suggested to connect Madurai road with Aizhapoyyalpatti.

i) The 60 feet 'AA' road is to pass through the S.F. Nos. 716, 717, 719, 720, 725, 731, 732, 760, 753, 755, 754 and 758.

ii) The 50 feet 'BB' road is to pass through the S.F. Nos. 670, 673, 669, 780, 781, 782, 787 and 786.

On either sides of bye pass road service roads shall be provided.

CHAPTER VI

ANNEXURE - C

Jurisdiction- Manaparai Municipality- Exclusion of Villages of Usilampatti, Kannudaiyanpatti and Kalingapatti from the limits of Manaparai Municipality- confirmation- ordered.

RURAL DEVELOPMENT AND LOCAL ADMINISTRATION DEPARTMENT

G.O.Ms.No. 1059

Dated 19.4.74

Read:

1. G.O.Ms.No. 120 RDLA, dated 21.1.74
2. From the Chairman, Municipal Council, Manaparai letter No. M11 dated 8.12.73 and 5.3.74
3. From the Villagers of Kannudaiyanpatti and Usilampatti letter dated nil
4. From the All party Committee, Manaparai petition dated 4.3.74

ORDER:

In G.O.Ms.No.120, RDLA, dated 21.1.74 proposals for exclusion of villeges of Usilampatti Kannudaiyanpatti and Kalingapatti from the limits of Manaparai Municipality was published.

2. The following representations have been received against the proposal.

The Chairman, Manaparai Municipality in his letter dated 5.3.74 has agreed to the exclusion of Kalingapatti Panchayat but has suggested the retention of certain portions from Kannudaiyanpatti and Usilampatti Panchayats in Manaparai Municipal limits.

The All party committee Manaparai has represented against the exclusion of Usilampatti Kannudaiyanpatti and Kalingapatti from Manaparai Municipality.

The villagers of Kannudaiyanpatti and Usilampatti have represented against the proposal to exclude their villages from the Municipality.

3. The representations are examined below:

1. ~~The~~ Chairman, Manaparai Municipality

The intention seems to be to retain the areas economically sound within the Municipality and exclude the other portions from the Municipality. When villages are excluded, the Government have to take into consideration not only the interests of the Municipality but also the interests of the Panchayat and Panchayat Unions as well. The suggestion of the Chairman, Manaparai Municipality

to retain certain portions from Kannudaiyanpatti and Usilampatti Panchayats within the Municipal limits and to exclude the other areas is not acceptable.

2. All party committee, Manaparai

It is seen that even after the exclusion of the three villages from the ~~xxxxxxx~~ Manaparai Municipality, the residuary Municipality will have all the qualifications which a municipality must normally possess in respect of population, income etc. To set right the unwieldy jurisdiction of Manaparai Municipality, the Government have proposed to exclude the three villages from that municipality. Hence, the objection of all party committee is over-ruled.

3. Representation from the public of Kannudaiyanpatti and Usilampatti villages.

Since the Manaparai Municipality is having unwieldy jurisdiction of 21.38 sq.miles, it has been proposed to exclude three villages from the municipal limits. As the exclusion of these villages would result in better administration of the residuary Municipality the objection raised in this regard is over ruled.

4. In the circumstances, the exclusion of the three villages viz., Usilampatti, Kannudaiyanpatti and Kalingapatti from the jurisdiction of Manaparai Municipality referred to in the G.O. first cited is hereby confirmed.

5. The appended notification will be published in English in the Tamil Nadu Government Gazette extraordinary dated 22nd April 1974 and in English and Tamil in the Tiruchirapalli District Gazette.

6. The Director of Translations is requested to have the notification translated into Tamil and to forward the same to the Collector of Tiruchirapalli for publication in the Tiruchirapalli District Gazette.
