Tiruttani Town has been upgraded as a Township because the town is a pilgrim town. The other functions of the town is mainly Agriculture and Commerce. For the orderly development of the town a plan should be prepared and implemented. The Surveys were conducted by the staff of the Directorate of Town and Country Planning and a Master Plan for Tiruttani was prepared on behalf of Tiruttani Local Planning Authority. It is hoped this document would be studied by all those who are interested and suggestions will be received for its improvement.

TIRUTTANI MASTER PLAN

Chapter - I

HISTORY AND LOCATION

1.01 Tiruttani is famous as a pilgrim centre due to the location of the well known temple of Lord Subramania on a hill top within this town. The origin of the temple goes to historic days and it is believed that the temple is at least 4000 years old. The rulers of Vijayanagar and Chandragiri and the Jamin dars of Karuvettinagar took special interest in the temple and renovate it whenever required. The temple covers an area of one acre and faces East and is square in shape with four pragarams. There are 5 gopurams and the devotees have to ascend a flight of 365 steps to reach the temple. It is significant that the number of steps to the temple is the same as the number days in a year. In addition to Lord Subramania in the temple his consort Sri Valli and Sri Deivayanagi and Sri Apthasagaya Vinayagar find a place in separate Garbagrahas in the temple complex. The Moolavar is 3 feet 6 inches in height and is known as Murugar and Gnanasaktidarar. The temple sthalapuram has been written both in Tamil and in Sanskrit. The Tamil version was written by Shri Kachiappa Munivar and is known as Thanikai Puram. The Sanskrit version is known as Kallargiri Mahatmiyam. Shri Ramalinga Swami and Shri Arunagirinathar composed Thiruvartuppa and 'Thirupugazh' respectively in this place. Saints Appar, Sundarar and Manicka Vasagar have visited this shrine.

- 1.02. The important annual festivals of this temple are:
1. Fleet Festival celebrated for three days in the month of Adi from the Krithigai day.
 2. The Thiruppugazh Bajanai on the 31st December of every year.
 3. Brahmotsavam in the month of Masi.
 4. Skanthat Sasti in the month of Ayyasi.

In addition Krithigai day of every month is a special significance when devotees far and near visit the temple. About 3 to 4 lakhs of pilgrims visit the temple for Adi Krithigai and fleet festival, while very large crowds gathered for the other festivals.

1.03 The temple which was originally under the management of Jamindars of Karvettinagar, is now under the control of Hindu Religious and Charitable Endowment Department.

LOCATION

1.04 It is located on the Madras - Bombay Railway route about 13 km. from Arakonam Junction and 82 km. from Madras. It is at a distance of 42km. from Thirupati on the North, 26 km. Sholingar in the West and 24km. from Thiruvelangadu in the East Tiruttani. Tiruttani the headquarters of Tiruttani. Tiruttani taluk was transferred to Tamilnadu in 1960 from Andhra Pradesh consequent on the implementation of Shri Patasakar's award. The population of Tiruttani is 24,496. (As per 1981 census)

CLIMATE AND RAINFALL

1.05 The climate of the town is characterised by hot and long summer and reasonably good seasonal rainfall. The maximum temperature is 42.9 C and minimum average temperature is 22.7 C.

ADMINISTRATION

1.06 Tiruttani has a township committee headed by the District Collector which was constituted by the Government in G.O.Ms.No.600 RD&LA dated 25.7.85 and is comprised of all the villages in the Tiruttani Town Panchayat formed as early as 1892. The area of the township is 12.42 sq. km.

1.07 A Local Planning Area with the Township limit was constituted by Government in G.O.Ms.No.504, H&UD dated 22.6.82 under Section 10(4) of Town and Country Planning Act 1971. Tiruttani Township was constituted as the Local Planning Authority under Section 11(i) of the Town and Country Planning Act 1971 in G.O.Ms.No.1089, H&UD dated 17.10.85.

CHAPTER - II

TEMPLE AND FESTIVALS

2.01 The sacred hill temple for Lord Muruga is situated on a monolithic rock is about 500 ft. above Mean Sea Level with hills on the Northern and Southern sides. The temple commands an excellent view and is like a peerless central jewel in the tiara of the region surrounding the hill. The ascent to the hill temple is by two flights of steps numbering 365 steps in each flight representing the number of days in a year spent in peace and happiness. Among the six hallowed abodes held sacred for the worship of Sri Subramanya or Skanda "Kunruthoradal" is one which is a place of pilgrims for Hindus throughout the year.

FESTIVALS

2.02 The two annual Brahmotsavam celebrated in this temple are during the Tamil months of Chithirai (April, May) and the other in the month of Masi (February, March) on the 1st January of every year Thirupugal Thirupadi festival is celebrated. About two lakhs of pilgrims attend this festival. Bajanaï troupes from all the nearby districts go over here and sing the rituals on all the steps during the whole night of 31st December.

2.03 On the occasion of Adi Krithigai, Tiruttani is visited by 3 to 4 lakhs of pilgrims. This festival attracts large crowds from all parts of the State. This festival is celebrated for 4 days. First day is Bharanaï Second day is Kiruthigai (1st float). More than one lakh Pushpa Kavadis (flower Kavadis) are offered.

During the festival days, the town wears a festival look when thousands of pilgrims stream in with their Kavadis, containing milk pots, fruits and flowers. Thousands of pilgrims also stay during nights. Facilities and amenities for pilgrims are however inadequate. The magnitude of the problem can be appreciated through a study of pilgrims movement and number involved.

Special trains and buses are run during Adi Kiruthigai festival. For the Adi Kiruthigai festival about 2300 special bus trips are arranged. Nearly 1350 cars, vans and taxis are coming to Tiruttani, most of the pilgrims arrive at Tiruttani 24 to 36 hours in advance of "Adi Kiruthigai" day. On Adi Kiruthigai almost 4 lakhs pilgrims visit Tiruttani. From the day prior to this festival, buses are not allowed to enter the bus stand, and are stopped at the town limits along the respective roads. Temporary arrangements are made for shelter.

Most of the people stay in open grounds. As per the official records, there are 360 mandapam and chatrams. People stay at these Madams. There are 96 cottages and 132 rooms provided by Devasthanam. There are about 10 private lodges.

CATERING FACILITIES

2.04 There are about 20 hotels and 100 small tea stalls and restaurants. These hotels are over crowded during festival days. Existing facilities are not adequate. More than 100 road side restaurants and vendors cater to the pilgrims during festival time.

PUBLIC HEALTH FACILITIES

2.05 Being a pilgrim centre, people bath immediately on arrival. There is a tank at the entrance to the temple. People take bath in this tank as well as in four other smaller tanks. Toilet facilities are arranged by Township authorities during festival time. Due to inadequate toilet facilities are entire open areas around the town are used for the purpose causing considerable health hazard.

The other festivals celebrated are Sivarathiri with 1008 Sanku Abishekam (March) and Sashti (October, November).

Monthly Kiruthigai and Sashti are the days of fasting and prayer for devotees of Muruga everywhere. Nearly 20,000 to 30,000 peoples visit the temple monthly during Krithigai. Due to its location on the highway to Tirupati, significant number of pilgrims visit this temple on all sundays also.

CHAPTER - III

CHAPTER - IV

POPULATION

The growth of Tiruttani town for the past few decades is given in Table 4.1.

Table - 4.1

TIRUTTANI - GROWTH OF POPULATION

Year	Population	Percentage Variation
1921	5815	---
1931	6405	10.25
1941	7197	12.37
1951	9925	37.90
1961	10324	4.02
1971	16361	58.08
1981	24496	49.72

Source : Census of India

The increase from 1961 to 1981 has been significant compared to previous decades.

The net increase of population of the town over the past 5 decades is 18,681 or 321%. This compared with the rate of increase with other temple towns. It shows that this temple town has been growing faster than the others.

Madurai	---	295.30%
Chidambaram	---	116.90%
Palani	---	188.90%
Sri Rangan	---	120.50%

Table 4.2 gives a comparison of percentage growth of urban population of the town with that of the District and State.

Table - 4.2

PERCENTAGE GROWTH OF POPULATION

Year	Tiruttani town	District Urban	State Urban
1951	37.90	(percentage variation) 40.23	41.25
1961	4.02	32.64	22.59
1971	58.48	108.44	38.64
1981	49.72	55.18	27.98

Source : Census of India 1981.

From the above table, it is seen that population growth of Tiruttani is much higher than that of the district and the State.

The sex ratio in Tiruttani town since 1921 is given in Table 4.3.

Table - 4.3

SEX RATIO

Year	Males	Females	Females per 1000 males
1921	2,870	2,945	1,036
1931	3,214	3,191	992
1941	3,592	3,605	1,003

Chapter - VI

STRATEGY FOR DEVELOPMENT

6.01 Tiruttani is a major Hindu Pilgrim Centre not only for Tamilnadu but for pilgrims from all over India. The town has no great potential for development as an industrial centre. All the same by virtue of the location of the famous Sri subramanyaswamy Temple in this town, it is likely to gain importance as a major commercial centre, in view of the large number of floating population who visit the temple.

6.02 The strategy for development of this town should include the following aspects.

1. Sufficient number of lodging places should be provided to cater to the needs of pilgrims.
2. Services such as water supply, drainage and recreational facilities should be strengthened to meet the needs of the floating population.
3. Creating of shopping complexes and the entertainment centres should be through of.
4. The approaches to the Hill temple should be widened wherever necessary to secure smooth vehicular and pedestrain movement.
5. Areas for parking of vehicles such as tourist buses and other automobiles should be planned.
6. The possibilities of organising caravan states with sufficient toilet and drinking water and well lighted, should be investigated and suitable

Educational:

7.05 In addition to the two existing higher secondary Schools an area of 10.75 hectares has been reserved for an industrial training centre and play grounds to cater to needs of future population.

Agricultural Use:

7.06 Most of the area within the Local Planning Area which are at present under agricultural use are proposed to be retained as such. A piece of land abutting Sholinger road has been reserved for a stadium. The areas coming under this use has been listed in the Annexure enclosed.

General:

7.07 Once the overall framework of the suggested land uses and road links proposed are approved, detailed proposals on the link roads proposed and the amenities discussed in chapter - VI will be worked out separately and action taken to implement town.

Abstract

Town Planning - Preparation of Zonal plans - formulation of Draft regulations submitted by the Director of the Town and Country Planning - Approved.

Rural Development and Local Administration Department

G.O. No. 1730

Dated the 24th July, 1974.

Read:

1. D.O. Letter No. 28332/MD/73-1., RD&LA., dated 7.3.73.
2. From the Director of Town and Country Planning Letter No. 10989073., SM/dated 21.3.74.
3. From the Member-Secretary, Madras Metropolitan Development Authority, D.O. Letter No. 19831/274., ADP/dated 19.05.74.

ORDER :

The Director of Town and Country Planning submitted draft zoning regulations on use of land and buildings particulars in urban areas. These regulations list out the uses permissible in each of the Use Zones and the restrictions to be imposed. For the purpose of these regulations, it has been suggested that the urban areas may be divided into the following six major use zones:

1. Residential use zone
2. Commercial use zone
3. Industrial use zone
4. Educational use zone
5. Public and Semi-public use zone.
6. Agricultural use zone

of course the residential use zone has been further sub-divided into two categories namely:

1. Primary Residential use zone; and
2. Mixed Residential zone.

The Industrial Sub Zone has been similarly sub-divided into three categories, namely:

1. Controlled Industrial Use Zone;
2. General Industrial Use Zone; and

3. Special Industrial and Hazardous Use zone

2. The Director has also stated that the Tamil Nadu Town and Country Planning Act, 1971 Provides for the zoning of areas under sections 17(1) and 20(2) (g) Through the Master Plans and Detailed Development Plans respectively. He has recommended that the draft Zoning regulations may be approved and communicated to the Local Planning Authorities for adoption as part of the Master Plan for prepare land use planning and control in addition to other regulatory measures, and that as for Madras Metropolitan Area, a copy of the regulations may be sent to the Member-Secretary, Madras Metropolitan Development Authority for adoption as part of the Metropolitan Development Plan with such modifications may be necessary. In consultation with him (The Director) and the Government.

3. A copy of the draft regulations was sent to the Member-Secretary, Madras Metropolitan Development Authority for his views. He has stated that the comprehensive land use proposals and zoning regulations for Madras Metropolitan Area are under preparations and that the suggestion of the Town Planning Directorate will be considered and incorporate to the extent as may be necessary in the final proposals.

4. The Government have examined the suggestion. They accept the views of the secretary, Madras Metropolitan Development Authority so far as it relates to the Madras Metropolitan area and as for other Urban areas of the State the Government approve, in principle the draft zoning regulations submitted by the Director of Town and Country Planning. The Director is requested to furnish copies of the draft zoning regulations to the Local Planning Authorities as soon as they are constituted.

5. The receipt of this order may be acknowledged by the Director of Town and Country Planning.

(By order of the Governor)

M.M. Rajendran,
Secretary to Government.

PROPOSALS

Residential use:

7.01 Table 7.1 and Map 2 shows the proposed land uses.

7.02 The existing residential areas on either side of the Chittoor Main road have been zoned as mixed residential zone. Where cottage industries and small shops can be permitted. The other part of the town is on the Eastern side of the temple which is fully set up part for the residential use. additional provision for residential use can be made on either side of Arakonam road in the South, and on either side of Tiruvellore road and expansion may be allowed in these packets.

Commercial use:

7.03 The commercial uses on either side of the main road viz. Chittoor road, Tiruvellore and Arakonam roads which cater to the need of the town are zoned for some more commercial areas. New commercial areas are proposed at the junction of Arakonam and Sholingur road and Madras road and the proposed bye-pass road.

Industrial use:

7.04 The area already notified as industrial area is retained as such. No additional areas are proposed since scope for industrial development in the town are limited. Being a pilgrim centre it is also not advisable to bring any major industries to this town.

sites developed to meet the needs of pilgrims visiting the town for short periods during festivals.

6.03 The accent of development of the town should be to provide all facilities and conveniences needed for the large number of pilgrims who assemble in this town for large number of pilgrims who assemble in this town for short durations. The second aspect of development which should be planned is to provide housing and other facilities for the expanding service population who cater to the need of pilgrims. Commercial areas and transportation facilities should be organised in a bigger way. Considering all these aspects it is estimated that the town should be planned for a total population of 50000 by the year 2001 A.D. The next chapter discuss primarily the land use allocations needed for this population and amenities discussed earlier.

6.04 It is necessary that each one of these aspects should be taken up for in depth study so that projects for implementation can be formulated for each of them. It is proposed to take up these aspects for detailed study and scheme formulation after the Master plan is approved by government.
