CHAPTER - IV

LAND USE AND TRANSPORTATION

4.01 The existing the land use is grouped under six major heads as given in table 4.1. Out of 2576 hect of land, in the town, 2136 hect. are under agricultural use leaving only 390 hectares for Urban use. Out of the developed area, nearly 59% is under residential use, 3% under Commercial use, 3% of under industrial use and 5% under educational use.

4.02 Residential area has developed on both sides of Theni-Cumbum road, Chinnamanur - Seepalakottai road and Chinnamanur-Alagapuri Road. Apart from these, small residential pockets - Keelapoolanthakkulam, Ayyanarpuram, Ottavedu, Pallikottaipatti and Muthuralingam Nagar are scattered within the Local Planning Authority limits.

4.03 The Commercial activities are concentrated mainly along the Theni - Cumbum Road and Chinnamanur Seepalakottai road. The Daily market is located in the eastern side, along Seepalakottai road. The Weekly market is situated on the northern side near Bus stand.

Both the daily market and weekly markets are now functioning without any amenities but they are easily accessible. They require improvements. Public offices are spread all over the town.

4.05 Some medium scale rice mills, a coir industry and a saw mill, form the major industrial units of the town.

4.06 The existing settlement is covered by wet lands on the west, coconut grows on the north and dry lands on the south and east. The existing land uses in the town and is shown in the Existing Land Use Map appended to this report are given in table 4.1.

Transportation

4.07 The north-South Theni-Cumbum road is the main road passing through the town and connects Cumbum Uthamapalayam, Cuddalur, Lowercamp, Kumuli on South, Theni-Periyakulam on north. The following roads are radiating from Chinnamanur and provide access to the surrounding settlements.

1. Chinnamanur - Seepalakkottai
2. Chinnamanur - Alagapuri road
3. Chinnamanur - Bodinayakkenur

4.08 Almost all the roads are narrow and irregular in width within the town. The width of most of the local roads are very narrow (nearly 20') causing traffic congestion. Within the Local Planning Area 21.8 Km of roads are maintained by Highways Department and the remaining 27.88 Km of roads are maintained by Municipality as detailed below.

Highways Department

Tar road	..	21.8 Km
Municipality		
Cement road	..	0.198 Km
Tar road	..	14.438 Km
Metal road	..	11.814 Km
Earth road	..	1.431 Km

		27.081 Km

4.09 Frequent buses are available to Theni and Gumbum. 90 buses make 260 trips from Theni to Gumbum, through this town. 82 buses make 226 trips from Gumbum through this town. Large number of lorries are passing through this town towards Gumbum and Theni on its way to Cochin and Madurai. Apart from this 30 city Buses connect the town to the surrounding settlements. These buses provide good communication links to the surrounding areas.

4.10 The bus stand is located on the north of the town with an extent of 1.53 Hect. But the buses are not utilising this bus stand properly. At present they are starting from a road junction, a congested place within the town.

4.11 There is no railway link for this town. The nearest railway station is Bodinayakkanur, at about 22Km away from this town.

CHAPTER - V

DEVELOPMENT POLICY

5.01 The previous chapters have shown that the town has no particular special significance or growth potential other than the fact that it is a service centre for the rural hinter land and has an agricultural base.

5.02 Based on the trend of population growth of the previous decades, population projections are worked out for the next two decades by various statistical exercises and the results are given below.

Method	Population in Year	
	1991	2001
Percentage increase Method	35,310	40,500
Arithamatic mean Method	34,660	33,830
Exponential Method	36,950	44,200

5.03 Among the population projections made, Exponential method suggest the highest anticipated

population of 44,000 in 2001. But the directorate has assigned a population of 50,000 for this town and hence for all design purposes a population of 50,000 by 2001 A.D has been assumed.

5.04 Taking into consideration of the expected increase in population, trends of development and the consequent land requirements for the orderly development allocation of land for residential commercial, industrial, education and public and semi public uses are calculated and master plan proposals are drawn up While formulating the Master Plan it was considered that Chinnamanur will continue to be a service centre with agricultural base.

5.05 Based on the studies made areas valuable for agricultural and garden uses were undisturbed and are reserved as agricultural lands. Only the dry lands available on the east of the town are proposed for development.

All land uses are judiciously allocated in appropriate places and the resultant land use allocations are shown in the proposed land use map appended to this report. The proposed land use break up is shown in table 5.1

Residential

5.06 The trend of development indicates that the town is developing on the eastern side over the dry

lands. Considering this trend, only dry lands on the east and south are considered for development as shown in the map. In addition sufficient areas are provided for the expansion of small settlements scattering within the Local Planning Area.

Commercial

5.07 The existing commercial activities, will be allowed to continue.

- 1) along the Cumbum - Thani Road up to a depth of 30 metres on both sides, as shown in the map from bus stand to Seepalakottai Road junction.
- 2) On both sides of north car street to a depth of 15m and
- 3) On both sides of Seepalakottai road to a depth of 15m.

5.08 The weekly market, adjacent to the bus stand requires improvement. Hence sufficient additional area has been earmarked for its development.

Industrial

5.09 Industrial areas have been provided on the east of the town along Seepalakottai road as shown in the map in confirmity with the present development.

Education

5.10 The present educational institutions up to Higher Secondary education will be sufficient for the future demand. As such no additional areas have been

provided separately. As and when the demand for a college arises, suitable area can be chosen for the purpose.

Public and Semi Public

5.11 Public and Semi public use includes Government offices, Medical Institution and Bus stand. No additional areas have been reserved for these purposes as no immediate demand for them is anticipated.

Transportation

5.12 The existing Bus stand is sufficient for the future needs also. But some of the important roads within the town require widening and improvement and should be taken up through detailed development plans.

Bye-Pass Road

5.13 The Theni - Cumbum road, passing through the town is very narrow and congested. To mitigate the problem of through traffic a bye-pass road is suggested as shown in the map, connecting Theni road to Seepalakottai road and from Seepalakottai road to Cumbum road.

General

As already indicated, the town has no great potential to grow rapidly. If the land uses, as proposed are controlled, traffic requirements are taken care of through the suggested Bye-Pass roads and agricultural uses are preserved, the town will grow into an ideal small town providing essential service for the surrounding rural hinter land and will form part of the hierarchy of settlements in this region.

CHAPTER - VI

ZONING REGULATIONS:

6.01 In order to implement the proposals contained in the Master Plan and prevent haphazard development certain essential and important zoning regulations will have to be framed and enforced. Such Zoning Regulations will vest essential powers with the competent authority for the enforcement of the Plan. It has to be however noted that the zoning regulations contemplated in this chapter are independent of the rules and regulations that have to be framed for the purpose of developing any zone or part thereof, within the Local Planning area. What is provided for in this chapter are therefore, regulations which are general in character and applicable universally within the Local Planning Area. These rules will facilitate permitting of certain developments in different zones. Every development within the area covered by the Master Plan shall conform to the zoning regulations prescribed hereunder. These regulations shall guide the grant or refusal of Planning permissions and shall be enforceable.

6.02 The land zoning for the Chinnamanur Planning Area is shown in the Map No. The uses that are permissible in each zone are given in APPENDIX 'A'. The S.F.No. brought under each use zones are given in Appendix 'B'.

6.03 As and when any area is bought under a Detailed Development Plan, under the Town and Country Planning Act 1971 the detailed development regulations prescribed under such a plan shall be applicable to that area in the place of the regulations under the Master Plan which are general in nature.

ORDER:

The Director of Town and Country Planning submitted
draft Zoning regulations on use of land and buildings parti-
culars in urban areas. These regulations list out the uses
permissible in each of the use zones and the restrictions
imposed. For the purpose of these regulations, it
has been suggested that the urban areas may be divided into
the following six major use zones:-

1. Residential use zone
2. Commercial use zone
3. Industrial use zone
4. Educational use zone
5. Public and semi public use zone
6. Agricultural use zone

of these, the residential use zone has been further sub-
divided into two categories namely: -

1. Primary residential use zone; and
2. Mixed residential use zone

The industrial use zone has been similarly sub-divided into
two categories namely:-

1. Controlled industrial use zone
2. General industrial use zone; and
3. Special Industrial and hazardous use zone

The Director has also stated that the Tamil Nadu Town and Country Planning Act 1971, provides for the zoning of areas under sections 17(1) and 20(2)(g) through the Master Plans and detailed development plans respectively. He has recommended that the draft zoning regulations may be approved and communicated to the local planning authorities for adoption as part of the Master Plan for proper land use planning and control in addition to other regulatory measures and that as for the MADRAS Metropolitan area, a copy of the regulations may be sent to the Member Secretary, Madras Metropolitan Development Authority for adoption as part of the Metropolitan Development plan with such modification as may be necessary, in consultation with him (the Director) and the Government.

3. A copy of the draft regulations was sent to the Member Secretary, Madras Metropolitan Development Authority for his views. He has stated that the comprehensived land use proposals and zoning regulations for Madras Metropolitan area are under preparation and that the suggestion of the Town Planning Directorate will be considered and incorporated to the extent as may be necessary in the final proposals.

4. The Government have examined the suggestion. They accept the views of the member secretary, Madras Metropolitan Development Authority so far as it relates to the Madras Metropolitan area and as for other Urban areas of the State, the Government will follow the principle, the draft zoning regulation submitted to the Director of Town and Country Planning. The Director is requested to furnish copies of the draft zoning regulations to the local planning authorities as soon as they are constituted.

5. The receipt of this order may be acknowledged by the Director of Towns and Country Planning.
