CHITTODU - NEW TOWN DEVELOPMENT AUTHORITY

NEW TOWN PLAN

CHAPTER.1

INTRODUCTION.

1.01. Rapid development of activities in the Urban areas attract large population, and subsequently result in higher densities. With phenomenal development of communication and industrialisation population of entire region have become redistributed with large portion clustering in the new centres of commerce and industry. Such concentration of population has produced many problems in towns and cities which become empounded by long neglect and complicated by piece-meal planning and development. The increasing complexity of urban society has created the need for adjustment and modifications in the physical form of urban development. The need to prepare a New Town Development Plan for emergin urban areas is to ensure a healthy and habitable environment for the present and future inhabitants before it is too late.

1.02. In order to channelise the future growth and expansion of any town in a planned manner, New Town Plans are prepared. It will provide for an orderly and well balanced growth of a town through co-ordination of the various activities.

1.03. Under the Tamil Nadu Town and Country Planning Act 1971. (Tamil Nadu Act 35 of 1972) Chittoodu and its environs was notified by the Government of Tamilnadu, under section 10(1)(c) of Town and Country Planning Act, as a New Town Area

for the purpose of development in G.O.Ms.No. 509, Housing and Urban Development Department dated 21st July 1981. This notification has been confirmed under section 10(4) of the Act, in G.O.Ms.No.1129 Housing and Urban Development dated 22nd December 1982. The revenue villages included in New Town Development Area is given in Table 1.1.

1.05. Under the Tamil Nadu Town and Country Planning Act 1971, the responsibility of preparing and executing the New Town Development Plan for Chittodu vests with the New Town Development Authority. Section 11(3) provides for the constitution of New Town Development Authority which will be the agency incharge of preparation and execution of New Town Development Plan. Accordingly the New Town Development Authority has been constituted under Section 11(3) of the Town and Country Planning Act in G.O.Ms.No.555 Housing and Urban Development Department dt.18th July 1984. The Plan so prepared may contain the allotment, designation or reservation

of land for different uses, provision of effective transportation and communication system, provision of infrastructure facilities for the town and regulation of development through a set of zoning regulations.

DEVELOPMENT STRATEGY FOR CHITTODE AS A "NEW TOWN"

1.06. The Regional Plan studies for Coimbatore and Periyar Districts has identified Chittodu as an important growth centre. The strategy proposed for development of Chittodu New Town would involve the strengthening of existing infrastructure facilities besides induction of new facilities so as to enable it to meet the future demands of urban services.

1.07. Chittodu has gained importance as handloom weaving centre and most of the people other than agriculturists depend on weaving. The acute shortage in the urban services at Erode like Housing, Water Supply, Drainage, Traffic and Transportation experienced at present is likely to be aggravated further with influx of urban population into Erode town consequent on its becoming the head-quarters of the newly formed Periyar District. Erode town is surrounded by river Cauvery and fertile wet lands restricting the enlargement of the town to the desired extent. Therefore there is likelihood of surrounding settlements such as Chittodu to grow rapidly in the next few years if necessary facilities could be provided since Chittodu is closely

located to Erode and connected by Major District Roads and National Highway. It has got potential for developing into a medium sized town in the immediate future. Dry lands and lands not suitable for cultivation are available for development in Chittoodu new town. The new town development plan appended for Chittoodu has provided land for different uses namely Residential, Commercial, Industrial, Educational, Public and Semi-public etc.

CHAPTER.2

STUDY OF THE EXISTING CONDITIONS.

LOCATION.

2.01. Chittodu is one of the 400 and odd small and medium sized towns which dot the landscape of Tamil Nadu. Chittodu is located at a distance of 10 kilometres from Erode, on the Madras-Cochin National Highway (NH 47) and it lies between Perundurai and Bhavani at a distance of 18 Kilometres and 5 Kilometres respectively. Chittodu New Town Area comprises of the Town Panchayats of Chittodu and Suriyampalayam and the revenue village of Mettunasuvampalayam and occupies an area of 2535.35 hectares.

PHYSICAL FEATURES:

2.02. The general topography of the New Town area is flat with slight undulation and the area is dominated by wet, irrigated dry and dry agricultural lands. Nearly 52% of the total area are covered by wet and Irrigated Dry agricultural lands. The river Cauvery flows from North to South along the eastern part of the new town area. Channel irrigation is predominant in the new town area. Chittodu is a nodal centre, well connected with the adjoining urban settlements in Coimbatore, Periyar and Salem Districts. Poramboke and dry lands occupy the high level areas of the new town area.

TEMPERATURE AND RAINFALL.

2.03. The climatic condition are uniformly hot through out the year. The average, maximum and minimum temperature of Chittodu recorded are 38° C and 22° C. respectively. The average annual rainfall is 700 mm. The climate is cool and pleasant during after November and till February.

SOIL AND SUB-SOIL

2.04. The soil in the Chittodu New Town Area is manly red loom and black soil. The Sub-soil condition is good from the point of view of building construction. Certain pockets of the New Town area are covered by rocks. Since the new town area is surrounded by channels, the water table is at a depth of 30 feet and above and ground water is available in abundance.

POPULATION - NEW TOWN AREA.

2.05. The population of the new town area as per 1981 census was 21, 514. The town extends over an area of 25.35 square kilometres including all the five revenue villages. The growth of population of Chittodu New Town for the past two decades are as follows:

Census Year.	Population	% Decade Variation.
1971	15,401	15.16
1981	21,514	39.69

As per the 1981 census, the town panchayats Chittodu and Suriyampalayam and Mettunasuvampalayam had a population of 7,055, 10,855 and 3,604 respectively. This shows the population increase of 39.56% and 50.42% and 16.75% respectively during 1971-81. The high rate of growth during 1971-81 is due to the urbanisation and the growth of new industrial units in the Chittodu New Town Area.

DENSITY:

2.06. The overall density of Chittodu New Town is 9 person per hectare during 1981. The residential density of the new town area is 156 persons per hectare of the developed area.

LITERACY AND SEX RATIO:

2.07. 36% of the population are literates according to 1981 census. The literacy among males is 70.90% and among females 29.10%. There are 937 females for 1000 males.

ECONOMIC BASE OF THE TOWN:

2.08. 39% of the total population according to 1981 census constitute the working force. Agriculture and allied activity are the chief occupation of the people which account for 48% of the total work force. Manufacturing and services account for 27% and 10.4% respectively while trade and commerce occupies 10.4% and transportation 2%.

2.09. The river Cuavery touches the eastern boundary of Chittodu New Town. The irrigation channels from Bhavani are the main source of irrigation and they irrigate more than 40% of the new town area. Agriculture both wet, dry and irrigated dry occupy 83% of the total area of the new town.

2.10. Industrial activity is also predominant in Chittodu new town. There exist 13 tanneries, dyeing units and one milk dairy unit are within the jurisdiction of Suriyampalayam Town Panchayat. Apart from this 6 oil mills, 2 rice mills, 1 floor mill, 2 sizing mills and 50 power looms function within the Chittodu Town Panchayat limit. There is potential for employment due to increasing trend of industrialisation. Table 2.1 indicate the occupational pattern for Chittodu New Town according to 1981 census.

LAND USE:

2.11. Situated at the junction of Madras - Cochin (NH 47) National Highway and Erode - Sathyamangalam Major District Road, Chittoodu New Town has a corporate area of 25.35 Square kilometres and the developments are scattered. Industrial developments are close to the residential areas due to lack of proper planning control and hence create nuisance for a healthy living.

2.12. Major part of the new town is covered by agricultural dry, irrigated dry and wet lands. Developments other than residential are at present taking momentum. Since the District Head-quarters Erode, is very close to Chittoodu, there is likelihood of increasing urban activities in this new town area.

2.13. The total developed area of the town is 212 hectares and forms 8.37% of the gross area of the new town. The rest of 91.63% of the area is occupied by agricultural wet, dry, irrigated dry and poromboke lands in which the poromboke lands alone accounts for 8.45%. Table 2.2 shows the extent of all major land uses classified as per G.O.Ms.1730, dated 24.7.1974 within the town as per blockwise field survey conducted during October 1985.

Major residential developments are around Chittodu Town Fanchayat along the National Highway and along the Sathyamangalam road. The other residential developments are scattered in rural areas. The total residential area to the gross area works out to only 5.44%.

2.14. Commercial uses occupy only 5 hectares of land which cater to the daily needs of the rural settlements in the area.

One weekly market is run at Chittoodu by Erode Panchayat Union. Tobacco curing and trading of chillies are important in Chittoodu Town Panchayat. Due to growth of industries and the surrounding agriculture hinter lands, the trade and commerce activity is predominant and the population depend mostly on Erode city for shopping and business purpose. Commercial uses occupy only 2.36% of the total developed area in the new town.

2.15. 48% of the total work force are engaged in agriculture and allied activity. Apart from this, 27% of the total work force are engaged in manufacturing industries.

2.16. The dairy unit gives employment for 246 persons. Dyeing of yarn is predominant in Suriyampalayam town panchayat. The tannery industries are more in the new town area especially within the limit of Suriyampalayam town panchayat. The agro.based industries like oil mills and flour mills and handloom weaving are predominant in Chittoodu town panchayat limits.

2.17. The wastes from the industrial units especially from tanneries are not treated and are let-out in storm water drains. They create health hazard to the surrounding areas. In Suriyampalayam town panchayat, the residential area, namely Indra nagar is very close to the leather industry units and the settlement is much affected by air-pollution.

The waste from the dying units are also let-out in open spaces and the pollution nuisance around these existing industries has to be controlled by proper treatment of wastes and letting out the effluent away from the settlements. Now, common treatment plan by Pollution Control Board is taking action. The future location of these industries are earmarked in the new town proposals. Nearly 19% of the total developed area are under industrial uses. There is more potential to start agro-based industries, dyeing units and leather industries in Chittoodu New Town.

2.18. The existing use under public and semi-public occupies very small area. Suitable areas are to be selected for this use while designing the new town development plan.

2.19. The transportation and communication use consists of streets, roads, bus and truck terminals and depots. Railway facility is available at Erode for the new town area. Except the National Highway, Sathyamangalam-Erode road and a few radial roads, the other interior roads within the new town limits are either metalled roads or mud-roads. Different categories of roads and their lengths within the new town area as follows:

<u>Category</u>	<u>Length in Km.</u>
(1) Earthen roads	12.30
(2) Jalli roads	16.00
(3) Metal roads	7.71
(4) Other roads (District roads and National Highway)	2.80
Total	38.81

SERVICES AND COMMUNITY FACILITIES.WATER SUPPLY

2.20. Chittoodu New Town is served by protected water supply system. Chittoodu Town Panchayat is served by Perundurairkarumandisellipalayam Water Supply scheme. The source is Cauvery river. There are 2 overhead tanks each with a capacity of 60,000 litres. In Suriyampalayam Town Panchayat, Water Supply system is provided through 2 Ground level reservoirs and 3 overhead tanks with wells as the source. In the other parts, water supply is provided by hand pumps and from 37 wells. The water supply for Chittoodu Town Panchayat is sufficient to meet the existing demand, but in the remaining parts the supply is inadequate to serve all the areas. Hence a comprehensive water supply scheme has to be prepared and implemented. The river Bhavani is flowing at a distance of 5 Kms. from the centre of the New Town area and hence water supply for this area will not be a problem.

2.21. There exist 10 public taps, 4 fountains and 17 industrial connections apart from 390 domestic connections. Ground water is available in abundance at a depth of 30 feet.

LAND VALUES:

2.22. Out of the total corporate area of 25.35 sq.Kms. 83% of the area is under agricultural use. 49% of the area is under Irrigated dry cultivation, 31% of the area is under Dry cultivation and 8.44% poramboke lands. The average value of land per Acre is from Rs.1,00,000 to 1,50,000.

Out of 240 hectares of available poramboke lands 140 hectares are being occupied by the Institute of Road Transport Technology a technical Institution, functioning under the Tamil Nadu Public transport Corporations. Since 3% of the total lands are under wet cultivation and 49% of the total lands are under Irrigated Dry and Dry cultivation, they are kept for the same use in the proposed New Town Plan for 2001.

DRAINAGE AND SEWAGE:

2.23. The New Town is not served by underground drainage system, only open drains are provided in all parts of the area. There is no sewage in this area.

CONSERVANCY:

2.24. Chittoodu Town Panchayat has one compost yard at a distance of 3½ kms. from the town, with an extent of 5 Acres.

COMMUNITY FACILITIES:

EDUCATION AND HEALTH FACILITIES:

2.25. Within Chittoodu New Town area there are 2 higher secondary schools, One high school and 7 primary schools. Apart from this one Arts College viz., Vasavi College of Arts and Science and one Engineering institution, viz., Institute of Road Transport Technology conducted by the transport corporations of Tamil Nadu are functioning within the New Town limits. The Educational facility is satisfactory for the whole of the Planning Area.

There exists one Government Hospital with a bed strength of 10 in Chittoodu town. One health centre, one family planning centre and one Maternity and Child Welfare Centre are functioning within this area. Since Erode and Bhavani Towns are very close to the New Town Area, the population also use the medical facilities available in these urban areas.

ELECTRICITY:

2.26. Electric supply is maintained by the Tamil Nadu Electricity Board. Almost all houses have been electrified. There are 300 street lights within the New Town Area.

HOUSING:

2.27. The present Chittoodu New Town area consisting of Chittoodu Town and the rural settlements most of the houses are semi-pucca type and only 1% of the houses are pucca buildings According to 1971 census. There were 3595 households as against 3019 houses in the area giving an average of 1.19 households per house comprising of 4.28 persons.

TRANSPORT AND COMMUNICATION:

2.28. Chittoodu Town and its environs are well connected by transportation routes. There are about 15 town buses operating within the New Town Area. Almost all settlements are connected with tar or black topped roads. The National Highway and the major District Roads connect Chittoodu to the nearby Perundurai, Bhavani, Erode and Kavundapadi towns. Since there are no terminal facilities for Buses at present, provision has to be made to construct a Bus terminal in the New Town Development Area to cater to the future needs.

RECREATION:

2.29. These are no parks within the town limits. A central recreation area has to be created. There exists one branch library in Chittodu Town at present.

DEVELOPMENT CONTROL:

2.30. Chittodu New Town area is not covered by any Detailed Development Plans/Sector Plans. The zoning regulations to be prescribed in the New Town Development Plan for Chittodu New Town area will help to guide development along properties. 31 Sectoral areas are delineated in the New Town Development Plan. The zoning regulations and the S.Nos. comprised under each zone have been prescribed as part of the New Town Development Plan and all the developments within the Planning area shall be in conformity with the zoning regulations and the planning permission shall also be regulated accordingly by the New Town Development Authority.

FINANCE:

2.31. House tax, professional tax, Vehicle tax, entertainment tax, income through remunerative enterprises and grants and loans from Government are the chief sources of Revenue for Chittodu New Town. Property tax is levied at 18% of the annual rental value of the properties for the year 1984-85. Chittodu first grade Town Panchayat and Suriyampalayam, Selection grade Town Panchayats are the towns, yield revenue to the New Town.

The total receipts during the year 1984-85 was calculated at Rs. 5,36,272/- and the total income including the balance at the beginning of the year was at Rs.8,58,477. and the total expenditure was at Rs. 7,58,869/- during the year.

The total receipts and expenditure during 1984-85 under Major heads are given below.

<u>Income 1984-85</u>	<u>Rs.</u>
House tax	1,41,549
Professional Tax	29,301
Cinematography	40,349
Stamp Fees	88,824
Fees	16,727
Water Tax	55,886
Water Charges	4,271
Licence Fees	33,340

<u>EXPENDITURE 1984-85</u>	
Establishment	55,911
Contingencies	24,113
Lighting	34,176
Public Health	34,573
Water supply	33,429

The capital expenditure incurred during the year 1984-85 towards transportation and public health within the New Town Area was Rs.1,66,824/- and Rs.1,78,574/- respectively.

CHAPTER - 3.ANALYSIS & ASSESSMENTPOPULATION AND WORK FORCE.

- 3.01. Population size gives an indication of the overall dimension of the physical requirements and supplies a basis yardstick for the estimation of space needs for various categories of land use. They assist in determining the amount of space needed for recreation area, industrial area and other community facility for all segments of population.
- 3.02. Studies on the future growth of population for Chittoodu indicate that the town will have a population of 25,000 by 2001 assuming that, the present rate of growth will continue. It is anticipated that about one lakh population should be housed in Chittoodu to ease the pressure on Erode Urban Centre. Thus Chittoodu New Town should be designed to house a population of 1,25,000 by 2001 A.D. The proposals have been worked out on this basis.
- 3.03. The participation ratio of workers to the total population according to 1971 census was 39%. The number of persons coming under the various age groups by 2001 is interpolated as given in table below.

TABLE 3.1AGE GROUP

Age Group	Percentage of total population	Male percentage	Female Percentage
00 - 14	30.00	15.00	15.00
15-34	39.00	19.50	19.50
35-59	25.00	12.50	12.50
60 and above	6.00	3.00	3.00
Total	100.00	50.00	50.00

3.04. While calculating the working force it is assumed that the age group between 15 - 59 will constitute the age group of the working force and out of which 80% of Male and 40% of the Female will constitute the total workers.

OCCUPATIONAL PATTERN OF CHITTODU 2001.

3.05. The total number of persons in the working age group is estimated to be 64% of population comprising of equal number of males and females. The total workers are estimated as 48,000 comprising of 32,000 males and 16,000 females constituting 38.36% of the anticipated population of 1.25 lakhs in 2001.

TABLE 3.2

OCCUPATIONAL PATTERN IN 2001

Sl. No.	Occupation	Workers	Percentage to total workers.	Percentage to total population
1.	Agriculture and Non Urban activities	3,840	08.00	03.07
2.	Manufacturing	16,000	35.00	13.44
3.	Trade and Commerce	12,480	26.00	09.98

5.	Construction	2,160	04.50	01.74
6.	Services & others	7,680	16.00	06.14
	Total	48,000	100.00	38.40

CHAPTER 4SPATIAL REQUIREMENTS.

4.01. Chittoodu New Town Development Area comprise of 2 town panchayats, one village panchayat and other settlements extending over an area of 25.35 square kilometres and is being administrated by two town panchayats and one village panchayat. The estimate of the land requirements is based on the anticipated population of 2001. In Chittoodu New Town nearly 52% of the lands are under agriculture use, mostly wet. Hence only 48% of the total lands can only be utilised for development. The planning areas proposed to be distributed under the following use zone viz. (1) Residential (2) Commercial (3) Industrial (4) Educational (5) Public and Semi-Public and (6) Agricultural wet and Dry.

LAND USE BREAKUP (NEW TOWN DEVELOPMENT AREA).RESIDENTIAL USE:

4.02. The land requirement for residential use for the population of 1.25 lakhs in 2001 AD. has been assessed on the basis of 225 persons per hectare. The residential area required will be 555 hectares. It includes the land required for local roads and streets, local shopping centres, primary school open space etc. The existing residential area at present is 138 hectares. Hence provision has been made to develop additional residential area to an extent of 524 hectares.

COMMERICAL USE:

4.03. 45 hectares of land is allocated for this use. The land has been allocated for shopping complex in 2 different places since the minor commercial uses are permitted in the residential use zones, the main commercial complexes account for the area set apart for the purpose.

INDUSTRIAL USE:

4.04. The total estimated working force in the New Town area is 48,000 of which the industrial working force would be 16,800 persons. The land required for industrial use is arrived at the rate of 120 workers per hectare. Accordingly the land required for the industrial use is 140 hectares. The present industrial development occupies an area of 40 hectares. Hence an additional 142 hectares of land should be developed for industrial purposes. Agro-based industries, Engineering industries and Industries to manufacture leather goods are expected to come up in this New Town.

EDUCATIONAL USE:

4.05. Available educational facilities are sufficient only to meet the needs of the existing population. Professional courses are not available even in the nearby Erode city. An Institute of Road and Transport Technology in an area occupying 135 hectares in Chittoodu New Town Area by the Transport Corporations of Tamil Nadu has come up. Apart from this additional area of 65 hectares of land has been set apart for educational use.

PUBLIC AND SEMI PUBLIC:

4.06. 85 hectares of land have been reserved for this use. These lands will be utilised mainly for public offices, medical institutions and for recreational purposes.

AGRICULTURAL USE:

4.07. Highly fertile land that lies along the irrigation channel and are fed by irrigation tanks have been reserved for the agricultural purposes. Some pockets of dry lands and lands utilised for other rural activities have also been included under this category. Water reservoirs and sewage farms will also be brought under this use.

PROPOSED LAND USE - BREAK UP.

4.08. The proposed land use breakup for the New Town Area for 2001 AD is given in the following table.

TABLE NO.4PROPOSED LAND USE FOR CHITTODU NEW TOWN DEVELOPMENT AREA 2001

Sl. No.	Usage	Area in Hectares	Percentage to Developed Area	Percentage to Total Area
1.	Residential	662.00	56.39	26.12
2.	Commercial	45.00	3.83	1.78
3.	Industrial	182.00	15.50	7.18
4.	Educational	200.00	17.04	7.89
5.	Public & Semi public	85.00	7.24	3.35
6.	Agricultural	1361.00	--	53.68
TOTAL		2535.00	100.00	100.00

WATER SUPPLY AND DRAINAGE:

4.09. Urban expansion require water for a variety of purpose which include human consumption, industrial use and recreation etc. It is therefore necessary to evolve a suitable water supply scheme for the area and consequently a sewage disposal scheme.

The present water supply system is inadequate. The anticipated population is 1,25,000 by 2001 and hence it is proposed to assess the future water supply requirements on the basis of 100 litres per capita per day. River Cauvery is the source of supply for the New Town Area. A comprehensive drainage sewage disposal scheme for Chittoodu New Town will have to be designed to cater to the needs of the ultimate population.

The overall estimate of water requirement at the rate of 100 litres per capita per day for the year 2001 is as given under.

Name of Urban Area	Year	Population	Allowance per Capita per day	Water requirement in Million Litres.
Chittoodu New Town	2001	1,25,000	100 litres	12.50

CHAPTER 5.LAND USE ZONING.

5.01. In order to regulate land and building use within the New Town Area based on the zoning map finalised a set of zoned regulations are issued by the Government in G.O.Ms. No.1730, Dated 24th July 1974, is appended as part of the New Town Development Plan and will be entered as under. These regulations list out the uses permissible in each of the use zones and the restrictions to be imposed. The classifications of use zones adopted in the planning area of the New Town are further sub-divided in respect of residential and industrial uses as shown below.

1. Residential use zone.
 - i) Primary residential use zone.
 - ii) Mixed Residential use zone.
2. Industrial use zone.
 - i) Controlled Industrial use zone.
 - ii) General Industrial use zone.
 - iii) Special Industrial and Hazardous use zone..

Every development within the New Town Area of Chittoodu shall conform to the regulations prescribed and also the proposals shown in the land use zoning map.

The use zones have been identified within the New Town Development Area and the above zones are demarketed in the proposed land use map. Each zone is assigned with a code notation. The zones and the code notations is shown in Table 5.1.

TABLE 5.1.

CHAPTER - 6ZONING REGULATIONS.

6.01. All the use zones within the Planning Area shall be regulated by the use zone regulations issued in G.O.Ms. No.1730 RD&LA, dated 24.7.1974 and the development will be regulated and controlled in accordance with development Control rules prescribed and annexed in Annexure 'D'.

6.02. Every Development within the area covered by the New Town Development Plan shall conform to the Land use regulations as annexed in Annexure 'B' and also with the proposals shown in proposed land use map. These regulations shall guide the grant or refusal of permission and shall enforce. The Annexure 'C' shows the classifications of Land use zones with use zone numbers and survey numbers.

ABSTRACT

TOWN PLANNING - Preparation of Zonal Plans - Formulation of Draft regulations submitted by the Director of Town and Country Planning - Approved.

RURAL DEVELOPMENT AND LOCAL ADMINISTRATION DEPARTMENT

G.O.Ms.No. 1730

Dated the 24th July,
1974.

1. D.O.letter No. 28332/MD/73-1, RD&LA., dt.7.3.73.
2. From the Director of Town and Country Planning, letter No.10989/73/S, dated 21-3-74.
3. From the Member Secretary, Madras Metropolitan Development Authority, D.O letter No.1988/74 AD-P dt.19.5.74.

ORDER:

The Director of Town and Country Planning submitted draft zoning regulations on use of land and building particulars in urban areas. These regulations list out the uses permissible in each of the use zones and the restrictions to be imposed. For the purpose of these regulations, it has been suggested that the urban areas may be divided into the following six major use zones:-

1. Residential use zone.
2. Commercial use zone.
3. Industrial use zone.
4. Educational use zone.
5. Public and Semi-public use zone.
6. Agricultural Use zone.

Of these, the Residential Use Zone has been further sub-divided into two categories namely:-

1. Primary residential Use Zone and
2. Mixed Residential Use Zone.

The Industrial Use Zone has been similarly sub-divided into three categories namely:-

- 2 -

1. Controlled Industrial Use Zone.
2. General Industrial Use Zone and
3. Special Industrial and Hazardous Use Zone.

2. The Director has also stated that the Tamil Nadu Town and Country Planning Act 1971, provides for the zoning of area under sections 17(1) and 20(2) (g) through the Master Plans and Detailed Development Plans respectively. He has recommended that the Draft zoning regulations may be approved and communicated to the Local Planning Authorities for adoption as part of the Master Plan for proper land use planning and control in addition to other regulatory measures and that as for the Madras Metropolitan Area, a copy of the regulations may be sent to the Member Secretary, Madras Metropolitan Development Authority for adoption as part of the Metropolitan Development Plan with such modification as may be necessary in consultation with him (the Director) and the Government.

3. A copy of the draft regulations was sent to the Member-Secretary, Madras Metropolitan Development Authority for his view. He has stated that the comprehensive land use proposals and zoning regulations for Madras Metropolitan Area are under preparation and that the suggestion of the Town Planning Directorate will be considered and incorporated to the extent as may be necessary in the final proposals.

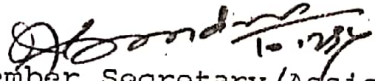

4. The Government have examined the suggestion. They accept the views of the Member-Secretary, Madras Metropolitan Development Authority so far as it relates to the Madras Metropolitan and as for other urban areas of the State. The Government approve in principle, the draft zoning regulation submitted by the Director of Town and Country Planning. The Director is requested to furnish copies of the draft zoning regulations to the Local Planning Authorities as soon as they are constituted.

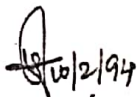

5. The receipt of this order may be acknowledged by the Director of Town and Country Planning.
