CHAPTER - I INTRODUCTION

LOCATION:-

1.01 Puliangudi town is situated in between Tenkasi and Rajapalayam on the Tenkasi - Thirumangalam National Highways (No.208). It lies about 32 Kms. North of Tenkasi and 40 Kms South of Rajapalayam. It is also well-connected with Kovilpatti which is situated about 56 Kms. East of Puliangudi by a major district road which passes through Sankarankoil. This town also lies at the foot hill of the western ghats and has gentle slope from west to east.

STATUS

1.02 Puliangudi Town was notified as third grade Municipality in Tirunelveli District in G.O.No.663 L.A.Dept. dated 18.03.1965 with effect from 01.04.65 and it is then elevated into second grade Municipality since 01.07.1998. The area of the town is 55.166 Sq.Kms. and the population in the year 1991 was 53287. Puliangudi Municipal area comprises of four revenue villages viz. Melapuliangudi Puliangudi Chinthamani and Thirumalainaickenpudukudi.

LOCAL PLANNING AREA AND LOCAL PLANNING AUTHORITY:-

1.03 To have an effective planning control the Local Planning Area comprising the entire Municipal area has been declared under section 10(4) of the Town and Country Planning Act 1971 in G.O.Ms.No.671 RD&LA Dept. dt.16.03.1974. For the Local planning area so declared the Local Planning Authority was also constituted by the Government in G.O.Ms No.650 R.D & L.A Dept. dt. 8.4.75 U/S 11(1) of the above Said Act. In G.O.Ms. No.651 R.D & L.A Dept. dt.8.4.75 the Govt. direct that the Chairman Members and Executive Authority of the Local Authority shall Automatically become the Chairman Members and the Executive Authority of the Local Planning Authority.

CLIMATE AND RAINFALL:-

1.04 The town in general is having a dry climate except the monsoon periods. The mean daily maximum temperature is 38.3 C and minimum 29.6 C. The normal Annual rainfall is 708.8 mm only. October to December months account for about 50% the total rains in the area.

MASTER PLAN

1.05 Master plan for puliangudi Local Planning Area was consented in G.O.M.s.No.386 H&UD Dept. dt.17.04.1985 and was approved in G.O.Ms.No.194 Housing and Urban Development Department dated 14.02.1991. Since more than 5 years have lapsed after approval of Master Plan review of approved master plan was taken up as required under section 32(2) (b) of T&CP Act 1971. The Review master plan was consented vide. G.O.Ms. 353 H & U D Dept. UD IV.2 Dated 18.8.1999. This was published in Tamilnadu Government Gazette part VI Section page 248 Dated. 21.6.2000

POPULATION CHARACTERISTICS

POPULATION

2.01 The size of population of Puliangudi Town in the year 1911 was 15463 and it has been raised to 53287 in 1991. The decade variation of the town population is furnished in the table No.2.1.

TABLE NO.2.1

DECADE VARIATION OF POPULATION

Year	Persons	Decade variation	Percentage of decade variation
1911	15463	---	---
1921	18437	2974	19.23
1931	21173	2736	14.83
1941	23695	2522	11.91
1951	27619	3924	16.56
1961	30648	3029	10.96
1971	38742	8094	26.40
1981	43998	5256	13.66
1991	53287	9289	21.11

Source:- District Census Hand Book

2.02 From the table it is found that the increase of population between the decades 1961 – 1971 is remarkable (i.e about 26.40%). It is 13.66% and 21.11% in the successive decades. Puliangudi town ranks second out of five Municipalities in the District by population.

DENSITY:

2.03 The overall population density of the town is 966 persons per Sq.km or 10 persons per hectare. Though the town area is 55.166 sq.Kms. the entire population is concentrated on the core of the local planning area.

CHAPTER III LAND UTILISATION

3.01 A land use survey was conducted by the Regional Deputy Directorate of Town and Country Planning Department Tirunelveli in the months of May and June 1988 covering the entire Puliangudi Local Planning Area in order to bring out an existing land use plan which will be the basis frame work for the proposed land use pattern. The existing land use pattern of the Puliangudi Local Planning Area in the map is annexed with the report.

RESIDENTIAL USES:

3.02 Thirumalainaickenpudukudi Puliangudi and Chinthamani are the main settlements where majority of the town population are habitated . The land put to residential use alone is 181.86 hectares and the residentials are very close and adjacent to each other.

COMMERCIAL USES

3.03 All the commercial activities are concentrated and developed along the Tenkasi – Rajapalayam Highways on both sides. This use mainly includes trades and business with a few service industries. One cinema Theatre and one daily market are there in Puliangudi. Another Cinema theatre is at Tirumalainaickenpudukudi. In Chinthamani road side commercial developments are practically nil. Retail and petty shops are inside the settlement. There are 450 Nos. of retail shops in the town. The Depot of Tamil Nadu State Transport Corporation is located at the Southern end of the town along the Tenkasi road 2.33 hectares of land is put under the commercial use zone.

INDUSTRIAL USES:

3.04 Powerloom industries are developed and more in Thirumalainakcken pudukudi village and a few in Chinthamanai and Puliangudi. Lungies and sarees are produced here. A few rice Mills are also developed here and there. Industrial units break up details are given below.

Rice Mills	19 Nos.
Match factories	03 Nos.
Ice factories	02 Nos.
Soda factories	05 Nos.
Power looms	12 Nos.

3.05 The industrial development occupies about 6.30 hectares of land.

EDUCATIONAL USE:

3.06 The town is served with 4 Higher Secondary Schools 3 High Schools 18 Middle Schools and 10 Primary schools. The institutions are more or less evenly distributed. The higher education facilities available here is utilized by the surrounding villages in 8 Kms. Radius. There is an Engineering Collage located at Sankarankoil road in Tirumalainaickenpudukudi Village Which serves the educational needs of surrounding areas. No arts and science college or industrial training institute are there in this town. The total area occupied by educational use is 6.39 Hect.

PUBLIC AND SEMI PUBLIC USE:

3.07 Puliangudi is a second grade Municipal town. It is not the taluk headquarter or Panchayat. Union headquarter. Only 6 Nos. of Government and Quasi Government offices are established here. The total area under this use zone is 16.12 hectares.

AGRICULTURAL USE ZONE:

3.08 The Study revealed that more than 94% of the Puliangudi . Local Planning Area is covered by Agricultural fields water bodies and forests. Out of the total lands put under agricultural uses dry lands are more and is about 63% of the total agricultural lands. Since water fed tanks are the main sources of irrigation wet lands are less. Paddy is the predominant crop produced in this town. The table No. 3.1 shows the land areas covered under different uses.

CHAPTER IV

OBJECT ASSESSMENT OF LAND REQUIREMENTS AND PLAN PROPOSALS

OBJECT

4.01 The Master Plan prepared under the Town and Country Planning Act broadly indicates the manner in which the lands and the buildings in the local planning area shall be used the allotment or reservation of lands for residential commercial industrial educational public and semi public and for agricultural purposes the making of provision for new highways arterial roads major streets and the traffic circulation pattern.

4.02 The Master Plan land use survey and their studies made so far reveal the further requirements of physical and socio-economic requirements. The assessment of requirements and the proposals are dealt in the following major heads.

- a) The Plan period
- b) Population projection
- c) Assessment of working force in various economic activities.
- d) Land use pattern and circulation pattern.

PLAN PERIOD:-

4.03 It is normally felt that from the practical point of view a period of say 15 to 20 years is neither long nor short to assume and to assess the requirement of any plan. So It is invariably adopted and for the preparation of Puliangudi. Master Plan year 2011 is being assumed as the ultimate plan period. The development of the town may expand beyond its present limit and grow within or sometimes outside the planning area. So to arrive at the population in 2011 the present population of the town and its past growth are considered generally.

4.05 POPULATION FORECAST:-

YEAR	POPULATION	DECADE INCREASE
1951	27619	---
1961	30648	3029
1971	38742	8094
1981	43998	5256
1991	53287	9289
		25668

BY ARITHMETICAL INCREASE METHOD:

$$\begin{array}{r} \text{Average increase } 25668 \\ \hline 4 \end{array} = 6417$$

$$\text{For 2001 } (53287 + 6417) = 59704$$

$$\text{For 2011 } (59704 + 6417) = 66121$$

(ii) BY GEOMETRICAL INCREASE METHOD:

$$\begin{array}{r} 3029 \times 100 \\ \hline 27619 \end{array} = 10.97\%$$

$$\begin{array}{r} 8094 \times 100 \\ \hline 30648 \\ 5256 \times 100 \\ \hline 38742 \end{array} = 26.41\%$$

$$\begin{array}{r} 9289 \times 100 \\ \hline 43998 \end{array} = 21.11\%$$

Average 18.03%

FUTURE POPULATION FOR :

$$\begin{array}{l} 2001 \quad - 53287 * 1.1803 = 62895 \\ 2011 \quad - 62895 * 1.1803 = 74235 \end{array}$$

(III) BY INCREMENTAL INCREASE METHOD:

INCREASE	VARIATION
3029	
8094	+ 5075
5256	- 2838
9289	+ 4033

Average incremental 2087
 Average arithmetical increase 6417
 Future population for

2001 $53287 + 6417 = (1 \times 2087) = 61791$
 2011 $61791 + 6417 = (2 \times 2087) = 72382$

FUTURE PROPULATION FOR YEAR:

BY METHOD OF	2001	2011
Arithmetical method	59704	66121
Geometrical increase method	62895	74235
Incremental increase method	61791	72382

MID TERM POPULATION FOR 1998 IS 57100

Considering this trend of growth of population the incremental increase method is suitable for this town. Hence future population for puliyangudi town for the next decades are:

2001 - 62000
 2011 - 72000

WORKING FORCE:

4.06 It is assumed that the future working force in various economic activities will more or less be same as in existing. However on the safe side it is assumed that 50% of the total population will be the actual working population in 2011 i.e 36000. This working force has to be distributed over the various economic activity based on the present trend.

4.07 It is found from the existing stratum of workers that primary activity is more in the town. Secondary activity is trying to go in line with the primary sector. Hence in view of the proposed development it may be assumed that 40% of workers each will be engaged in primary activities, Secondary Activities respectively and the remaining 20% workers will be grouped under tertiary sector. The suggested occupational break up is given below as table No.4.1.

TABLE 4.1
OCCUPATIONAL BREAK UP 2011

Economic activity	Existing occupational Breakup	Suggested occupational Break up	Workers
Primary	48.03%	40%	14400
Secondary	29.96 %	40%	14400
Tertiary	22.01%	20%	7200
	100.00	100	36000

4.08 Having arrived at the number of workers in different economic activities the land required for different uses can be worked out based on certain standards.

LAND REQUIREMENTS AND LAND USE PATTERN

4.09 The principal land uses for which the land requirements have to be worked out as per the zoning regulations prescribed in G.O.Ms.No.1730 RD&LA Dept. Dated 24.07.74 are:

- (1) Residential use zone
- (2) Commercial use zone
- (3) Industrial use zone
- (4) Educational use zone
- (5) Public and semi public use zone and
- (6) Agricultural use zone

4.10 The land uses governing the proposed master plan of Puliyangudi Local Planning Area are shown and the land requirements for various uses are described below.

RESIDENTIAL USE:-

4.11 The residential part of Puliyangudi local planning Area has developed in a particular place except the Ayyapuram hamlet of T.N.Pudugudi which is geographically detached from the main Nathan by about 2 Kms. and connected by a cart track which is to be improved and maintained. The core of the residential development which include Melapuliyangudi Puliangudi Chinthamani and Tirumalainaickenpudukudi have been developed in a haphazard manner and different uses are mingled with one another and with high residential density.

4.12 Even though the residential density is high in certain parts of the town. It is assumed that an average gross residential density of 160 persons/hectare may be a normal density expected in the town. The anticipated population of 72000 in 2011 the total residential area required is $72000/160 = 450$ hectares. By deducting the existing residential area the actual area additionally required which will be adjacent to the existing nathams towards proposed bypass road on west around 360 hectares. It is classified as mixed residential use zone. The S.Nos. comprising the residential use zones and the uses permitted in the zones are given in the Annexure I (use zone I (b)).

COMMERCIAL USES:-

4.13 In Puliangudi Local Planning Area the cash crop of Lemon is being cultivated near the Ariyamannarkulam Periyappan Jammannakulam Naranapperikulam area and also the surrounding villages. These Lemons are exported to Gulf Countries through Trivandrum Airport. As explained in Chapter III most of the commercial uses have developed along the Tenkasi Rajapalayam road and on both sides of the road. Only very few commercial used buildings are located inside the residential localities. The total land required for commercial uses have been suitably distributed in all the existing development and in proposed development. The existing trend of development of the commercial activity along the road are considered and additional areas required for commercial activities are also provided along the Tenkasi Rajapalayam road itself in continuation of the existing pattern of development to a depth of 30m on both sides. In addition to that to segregate the industrial areas and residential development certain commercial use zones as buffer zone are also suggested. In the proposed buffer zone area at the southern end of proposed bye pass road necessary lemon godown building have to be constructed in future period.

4.14 It has been assumed that a standard of 300 commercial workers per hectare will be the normal density for working out the land requirement for commercial area. Since the actual workers under commerce has not been calculated and since it is included in the tertiary activity of the town the total workers expected under tertiary sector has been taken in the account for arriving the commercial area. For 7200 workers the area required will be $7200/300 = 24$ hectares. This include the existing commercial development also . The S.Nos. comprising the commercial use zone and the uses permitted are given in the Annexure I (use zone II).

INDUSTRIAL USE:-

4.15 As regards industrial use this town have poor industrial growth. Only power loom industries on the eastern part of TN Pudukudi are developed. The extent of the existing industrial area is 6.30 hectares. Considering the existing growth of industrial use are proposed in the following areas.

- (i) the area in between hill road and LPA boundary and western side of the DD Plan III.
- (ii) Eastern side of Tenkasi road along the southern boundary of LPA.
- (iii) Area in between eastern side of Thiruvetanallur road and southern side of LPA boundary up to pond.

4.16 The type of industries suggested in Puliangudi Master Plan are general industries and controlled industries. No area has been proposed for special and hazardous industries. The S.Nos. comprising the industrial zone and uses permitted are listed out in the Annexure I (Use zone III (a) and III (b)).

EDUCATIONAL USE:-

4.17 Except 4 higher secondary schools all educational use lands are allowed in the mixed residential use zone and hence not marked individually. Since no specific standard is available for this use a total land of 60.18 hectares has been proposed for this use including the existing uses. Considering there is no arts college in surrounding area some extent of land is proposed for college in Chinthamani village. The S.Nos. comprising the use zone and the uses permitted in this use zone are given in the Annexure I (use zone IV).

PUBLIC & SEMI PUBLIC USE:-

4.18 In Puliangudi no office at divisional level. Or no major hospitals and other similar buildings are there. Most of the office (Subdivisional level) are accommodated in rental buildings and scattered in the existing natham. Since such type of public office (Buildings) are allowed in mixed residential uses they are not specifically marked. Major areas of Particular uses like Municipal offices Bus Stands Bus depot Veterinary dispensary burial ground etc. have alone been marked in the map.

4.19 There is no specific standard for different uses coming under this category. However 24.50 Hectares of land is proposed in Tirumalainaickenpudukudi village..The S.Nos. Comprising the use zone and the various uses permitted in this use zone are given in the annexure I (Use zone V)

AGRICULTURAL USES:-

4.20 The remaining lands other than the lands additionally proposed for the above five uses are grouped under this use. Wet lands and the remaining dry lands in the planning area are kept as such under agricultural uses. This area is termed as under developed area of the local planning area. As said earlier this use zone includes all the water bodies hillocks forests pathways besides the wet and dry lands. The total area available under this use zone is 4931.66 hectares. The S.Nos. comprising this use zone and the uses permitted in this use zone are given in Annexure I (Use zone VI).

PROJECT PROPOSALS:-

BYE PASS ROAD

4.21 The Tenkasi Rajapalayam road is an important highway in Puliyangudi town. Traffic flow in this road is even increasing due to intensive commercial activities and to relieve traffic congestion along this corridor. A new bye pass road of 18 m wide is proposed on western side of the town in continuation of the road of Detailed Development Plan No.III with a width of 18 m. This alignment of proposed road AA starts from the industrial area of TirumalainaickenPudukudi passes through Proposed mixed residential area wet lands of Melapuliyangudi and puliangudi villages and ends in S.No. 65 of Puliyangudi so as to connect with Rajapalayam road on the northern side of town. The S.Nos. comprising the new road is given in the Annexure II.

COMMERCIAL COMPLEX:

4.22 There is one daily market located within the municipal limit at Tenkasi Madurai road. This serves the surrounding villages. During the Morning hours traffic congestion is heavy due to the vegetable purchasers. Hence a commercial complex containing all types of things is needed to this town. This Commercial complex may be installed along the proposed bye pass road in the western side of commercial zone. (ie) S.Nos. 110 , 145 , 147 , 148 , 149 , 151 of Thirumalainaicken pudukudi Village.

COMPOST YARD:

4.23 This town has generated 50 to 60 T garbage per day. There is no organized place for putting up this sullage. A Compost yard is proposed in S.No. 38 and 39 of Thirumalainaickenpudukudi village in consultation with the local body.

PROPOSALS IN D.D.PLAN AREA:

4.24 This town have two Detailed Development plans namely Detailed Development plan No.3 and 4 both are consented by Director of Town and Country Planning under the section 25 of Town and Country Planning Act 1971. The D.D.Plan roads namely E1E1 in D.D.Plan No.3 and DD road in D.D.Plan No. 4 respectively are to be taken up for project proposals. Because the owners in the proposed D.D.Plans are willing to give the land voluntarily at free of cost.

4.25 The following Table shows the project proposals in the town with approximate estimate.

Table No.4.2

PROJECT PROPOSALS:

Sl.NO	Description of items	Estimate Rs.
1	Bye pass road AA (On western side of heart of the town) 5 K.m	3,50,00,000.00
2	Compost Yard	25,00, 000.00
3	Commercial Complexes	1,00,00, 000.00
4	Link roads (D.D.Plan roads)	75,000.00

ORDER:

The Director of Town and Country Planning submitted draft zoning regulations on use of land and buildings particulars in urban areas. These regulations list out the uses permissible in each of the use zones and the restrictions to be imposed. For the purpose of these regulations it has been suggested that the urban areas may be divided into the following six major use zones.

1. Residential use zone.
2. Commercial use zone.
3. Industrial use zone.
4. Educational use zone.
5. Public and semi public use zone.
6. Agricultural use zone

Of these the Residential use zone has been further sub divided into two categories namely:-

1. Primary Residential use zone and
2. Mixed residential use zone.

2. The Director has also stated that the TamilNadu Town and country Planning Act 1971 provides for the zoning of areas under Section 17(i) and 20(2) (g) through the Master Plans and detailed development plans respectively. He has recommended that the draft zoning Regulations may be approved and communicated to the Local Planning Authorities for adopting as part of the Master Plan for proper land use planning and control in addition to other regulatory measures and that as for the Madras Metropolitan area a copy of the regulations may be sent to the Member-Secretary Madras Metropolitan Development Authority for adoption as part of the Metropolitan Development plan with such notification as may be necessary in consultation with him (the Director and the Government.)

3. A copy of the draft regulations was sent to the Member Secretary Madras Metropolitan Development Authority for his views. He has stated that the comprehensive land use proposals and that the suggestion of the Town Planning Directorate will be considered and incorporated to the extent as may be necessary in the final proposals.

4. The Government have examined the suggestion. They accept the views of the Member-Secretary Madras Metropolitan Area and as for other Urban areas of the State the Government approve in principle the draft zoning regulation submitted by the Director is requested to furnish copies of the draft zoning regulations to the Local Planning Authorities as soon as they are constituted.

5. The receipt of this order may be acknowledged by the Director of Town and Country Planning.
