RANIPET MASTER PLAN (MODIFIED)

PART – I

CHAPTER – I

INTRODUCTION

- 1.01. The rate of urbanization is increasing day by day due to the increase of population and also due to migration of population from villages to Urban Centres seeking gainful employment. The problem of urbanization can be solved only by preparation of Master Plans, which may be regarded as means of systematically anticipating and achieving adjustment in the Physical environment of the town consistent with social and Economic trends and sound principles of Civic design. It involves a continuous process of deriving, organizing and presenting a broad and comprehensive programme of Urban development. It is designed to fulfill local objectives of Social economic and Physical well being considering both immediate needs and those of the foreseeable future.
- 1.02. The Tamil Nadu Town and Country Planning Act 1971 (Tamil Nadu Act 35 of 1972) provides for the preparation and sanction of Master Plans. It also envisages the Local Planning Areas and authorities for the preparation of Master Plan. Ranipet Municipal Area has been declared as Ranipet Local Planning Area under section 10(A) of the Act in G.O.Ms.No.656, RD & LA., Dt. 16.3.74 and the Local Planning Authorities have been constituted under section 11(1) of the Act in G.O.Ms.No.650 RD & LA., Dt. 8.4.75.
- 1.03. The Ranipet Master Plan was prepared and approved by the Government in 1982 under section 28 of the Town and Country Planning Act 1971 in G.O.Ms. No.180 H&UD., Dt. 20.2.90 and the same is in operation now.

- 1.04. The Act provides for review of approved Master Plan, once in five years under clause (b) of sub section 2 of section 32 of the Tamil Nadu Town and Country Planning Act 1971. Accordingly the Government fixed target for the year 2000. 2001 and have directed the Ranipet Local Planning Authority to review the Master Plan for Ranipet Local Planning Area, which was already approved by the Government, after carrying out such fresh surveys as may be considered necessary and in consultation with the Local Authorities concerned and to may such modification where ever necessary and submit the modified Master Plan for approval of the Government.
- 1.05. The approved Master Plan was prepared based on the surveys conducted during 1983 and also based on the 1981 census. Hence fresh surveys have been undertaken and the latest particulars have been collected from different sources and the report is updated with 1991 census figures. This report is organized in four parts. The first part titled "Existing Features" discusses briefly about physical features, population character, land use pattern, existing infrastructure facilities etc. The second part titled "Proposed Developments" deals with the dimensions of future populations and future requirement of land and other infrastructure facilities. The third part deals with "Project and Implementation" and the fourth part deals with Development regulation and zoning.
- 1.06. This report has limited scope as it indicates broadly the general problems of the Planning Area and the broad policies of Development. Detailed Plans focusing attention on particular aspect and detailed design for each aspect of the proposal will have to be taken up separately based on the proposals outlined in the report.

CHAPTER – II

HISTORY AND GROWTH OF TOWN

2.01 Ranipet is situated on the Northern Bank of Palar river just opposite to Arcot and lies on the Chennai – Chittoor Bangalore road (N.H.4). It is located at 12° 56' northern latitude and 79° 20' Eastern longitude and is 93 Km West of Chennai. It is geographically in the North – East of Vellore Region. Two National Highway roads pass through this town (1) Chennai – Chittoor – Bangalore National Highways (N.H.4) and (2) Ranipet – Krishnagiri road (N.H.46). The town is well connected by rail and road with the adjoining Urban centers Walajapet, Arcot, Arni and Vellore. Chennai – Bangalore Broad gauge railway line is passing at distance of 5 km. Ranipet SIPCOT Industrial Complex lies in the North – West of Ranipet Town.

HISTORY:

2.02 Ranipet town was built around the year 1771 by Sadullakhan in honour of youthful widow of Desingh Raja of Ginee-who committed Sati upon her husband's death. Out of respect for Desingh Raja's Valour and his wife's devotion, the Nawab founded a new Village opposite to Arcot on the Northern bank of Palar river and named it Ranipet. The town gained importance since the establishment of European contonment. About a mile west of Ranipet is a remarkable thope extending along the Palar river, for a distance of 4.8 km which is known as 'Navlakh Bagh'. It is supposed to contain 9 lakhs of trees and hence the name "Navlakh Bagh".

The Local legend states that when Arcot was first occupied by the Moghuls, the country around was covered with woods which the Nawab cut down. The birds that were deprived of their nesting places flocked to the palace and tormentende the Nawab with their plaintive cries until he appeased them by planting this extensive thope.

Ranipet is the headquarters of the Ranipet revenue Division. Messrs. Parry and company has an establishment here for the manufacture of chemicals and ceramic wares, Dr. Ida Scudder had first started a hospital here. Ranipet is also noted for manufacture of leather products also beedi. The weekly cattle shanddy here attracts numerous people from neighbouring areas.

LOCAL BODY

- 2.03 Ranipet town was constituted as a municipality with effect from 1.4.1959. The town was divided in to 30 wards. The extent of the Municipal area is 8.2 Sq. Km. and its population as per 1991 census, is 42583. It is classified as a first grade Municipality.

LOCAL PLANNING AUTHORITY:

- 2.04 Ranipet Local Planning Area comprising of the Municipal Area was notified and confirmed under section 10 (4) of Town and Country Planning Act 1971 by the Government in G.O.Ms.No.656, RD & LA., Dept., Dt. 16.3.74. The Local Authority as Local Planning Authority for Ranipet Local Planning Area has been constituted under section 11 (1) of Tamil Nadu Town and Country Planning Act 1971 by the Government in G.O.Ms.No.650, RD & LA., Department, Dt. 8.4.75.
- 2.05 The Government in G.O.Ms.No.651, RD & LA., Department Dt. 8.4.75 have issued clarification that on the declaration by the Government of the Single Local Authority as Local Planning Authority under provide to section 11 (1) of the Act, the Chairman, Members and Executive Authority of the Local Authority shall automatically became the Chairman, Members and the Executive Authority of the Local Planning Authority.

CHAPTER III

PHYSICAL FEATURES

GEOGRAPHY

- 3.01 With regard to Ranipet, almost the entire town and environs are plain and the general slope is from West to East. The town is situated at an attitude of 176.47 metres above mean sea level.

CLIMATE:

- 3.02 The taluk has a fairly healthy climate. The town area has a distinctly high temperature in hot months and cold weather is of short duration.

The climate seasons are generally classified as follow:

- a) Cold season from November to January with a mean maximum and minimum temperature of 29 C and 18.4 C respectively.
- b) Warm season from February to March and from July to October with a mean maximum and minimum temperature of 35 C and 19 C respectively.
- c) Hot season from April to June with a mean maximum and minimum temperature of 38.5 C and 24 C respectively.

The mean maximum temperature during summer normally occurs in the month of May while the minimum temperature in winter occurs in January.

RAINFALL:

3.03 The North – East monsoon given most of the rains. The rainfall for the last fifteen years have been noted from the records of Vellore rain gauge station and the average rainfall occurs during the month of September an October due to North East monsoon.

The wind direction is predominant towards South – Wet in the whole of the year. However, during summer it is from South – West to North – East.

SOIL:

3.04 The soil of the area is poor, being red and black clay mixed with a large proportion of sand and gravel and as there are no local jungles, the land does not get much natural manure. Other than limestone, there are hardly any minerals. Even building stone is scarce compared with the rest of the district.

CHAPTER – IV

POPULATION STUDIES

GENERAL

4.01 Population studies refers to the study of the size, composition and spatial distribution of population and change over time. It is very important in the preparation of Master Plan. This forms a basic yardstick for the estimation space needs for various categories of land use.

GROWTH OF POPULATION:

4.02 In 1901 the population of Ranipet was 7607. As per 1991 census, population of Ranipet town is 42583 with a decennial growth rate of 18.37% during the decade 1981 to 1991. The decade wise population growth of Ranipet town since 1901 are shown in the Table 1.01.

Table 1.01 Growth Of Population Since 1901

Census Year	Population	Variation	Percentage of Variation
1901	7607	-	-
1911	7807	+200	+ 2.63
1921	8307	+ 500	+ 6.40
1931	11583	+ 5376	+ 39.44
1941	14270	+ 2687	+ 23.20
1951	18945	+ 4675	+ 32.76
1961	22974	+ 4029	+ 21.27
1971	29281	+ 6307	+ 27.45
1981	35974	+ 6693	+ 22.85
1991	42583	+ 6309	+ 18.37

Source: Census of India 1991.

There has been negligible change in population in the decade 1901 – 11 and 1911 – 21. From 1921, the growth is rapid and the town has attained a population of 42583 in 1991 from 8307 in 1921. The increase may be due to rapid industrialization of the Town.

SEX RATIO

4.03 The distribution of male and female population in Ranipet Town from 1951 to 1991 is shown in Table 1.02

TABLE 1.02 SEX RATIO

Year	Male	Female	Female per 1000 Males
1951	9651	9224	963
1961	11565	11409	986
1971	14881	14400	967
1981	18272	17702	968
1991	21053	21530	1022

Sources: Census of India 1991

It is seen that there is no notable change in sex ration up to 1981. However the proportionate female population has rapidly increased in the decade 1981 – 91

LITERACY:

4.04 As per 1991 census 69.52% of the total population of Ranipet town were literates which males accounted for 54.00% and female 46.00%. There has been a steady increase in the percentage of literates from 42.11% in 1961 to 69.52% in 1991. It is observed that the female literacy rate is increasing steadily.

OCCUPATIONAL PATTERN

4.05 As per 1991 census, out of the total population of 42583, main working forces is 12038 which is 28.26% of the total population. The participation rate of Ranipet Town is less when compared to other Urban centers.

The table 1.03 shows the occupational pattern of Ranipet Town for the year 1971, 1981 and 1991.

Primary sector activities have decreased in 1991 over that of 1971 & 1981 and this shows diversion of workers to the other sectors. The secondary sector activities have considerably increased during the last two decades. From the above occupational characteristics Ranipet is well understood to be as industrial town from the fact that the percentage of works in manufacturing industry is high E.L.D. Parry and Tanneries are playing important role by employing more number of person in their industries.

CHAPTER V

LAND USE PATTERN

GENERAL

5.01. Urban land use is one of the most essential ingredient for policy formulation and programme relating to urban planning and development. The major objective of existing land use study are:-

1. To find how the existing land use compare with the space standards and to suggest reasonable standards and proportion of land requirements for different use and to assess the land requirements for the end of planning period.
2. To find the influence of the Geographical, Physical, Demographical and Social economic Characters on the land use pattern and
3. To regulate and segregate the different land uses and allow the town to grow in a planned manner.

5.02. Ranipet Local Planning Area extent over 8.52 km and it is situated on the Chennai – Bangalore road (NH 4). The main development has occurred along the main roads viz Chennai Bangalore road, Ranipet – Krishnagiri road, Ammor road etc.,

CHAPTER – X

INFRASTRUCTURE FACILITIES

INTRODUCTION

10.01 Infrastructure facilities denote the services and facilities which are an integral part of an urban community. There is no special magic about the process by which we can delineate the infrastructure facilities from other activities of a settlement. The housing and transportation which can be categorized and separated and the remaining are subdivided in to three major type vize institutional, Recreational and utilities and services.

INSTITUTIONAL

10.02 Institutional chapter has a dual purpose to describe the present provision of education and health in the planning area and to consider the implications for the future of the population expansion envisaged by the survey.

EDUCATIONAL

10.2.1. There are 8 elementary schools, 6 middle schools and 4 Higher Secondary Schools functioning in the Town. In addition there are 2 matriculation school, 2 Teacher Training School and one Junior certified school are functioning in this town. There is no college with in the town. But one Government Arts College for women and one aided college for men are functioning in Walajapet and Melvisharam respectively which are adjoining to this town. Self finance Science and Engineering Colleges, Poly technical and ITI are functioning near by Villages. Higher order educational facilities are available at Vellore which is 23 km away from this town.

Adopting a standard of one High School/Higher Secondary School for 15,000 persons, for a population 50,000 (Estimated for 2001) within the town, the existing facilities of 4 Higher Secondary Schools, 6 middle / 8 Elementary Schools, 2 Matriculation Schools, Seems to be sufficient for the present.

MEDICAL

UTILITIES AND SERVICES

10.4. The important utilities and services are water supply, sewerage disposal, drainage, electric power supply etc. In most of the towns utility and services are not planned properly. In urban areas the population is growing day by day due to migration in addition to the natural growth of population. This has resulted in over load of the utility system and consequent reduction in standards.

WATER SUPPLY

10.4.1 A combined water supply scheme to Arcot and Ranipet Municipalities was sanctioned and executed at an estimated cost of Rs.12.5 Lakhs in the year 1958. As there was problem in sharing the water and on the request of the concerned Municipal Councils, the Ranipet Municipality was detached from the scheme in the year 1981.

Further an improvement scheme was sanctioned by the Government in G.O.Ms.No.1746 RD & LA., dt. 25.11.1983 at an estimated cost of Rs.89.50 Lakhs. The scheme was executed by the TWAD Board and commissioned in the year of 1989. The source of the scheme is Palar river. The head works is situated at Karai Village on the northern bank of Palar river, at a distance of 3 k.m from the town. The water from the head works is conveyed to the reservoir through 250 mm and 200 mm AC mains. The water is supplied through three O.H.T. Their location and capacity are given in Table I.18.

TABLE NO.1.18 LOCATION AND CAPACITY OF O.H.T.

Sl.No.	Location	Capacity in litres
1	Near by S.M.Hospital	2.75 Lakh
2	Near by Weekly shandy	14.00 Lakh
3	Near by IVPM	10.00 Lakh

Water supply distribution to the town is being made at different times to different zones. At present daily about 46 lakhs litres of water is supplied through nearly about 4080 individual connections and 175 public fountains. The per capita water supply works out to be 90 litres per day which is above the normal when compared to other towns. In addition to the above the municipality is maintaining 45 hand pumps at different locations.

DRAINAGE:

10.4.2 There is no under ground drainage system available at present. Sullage and sewage water are disposed through open surface drains which are connected to Prinji Eri located in the eastern part of Town. Storm water is being drained in to Prinji Eri and then to palar river.

Nearly 7200 houses are having flush out latrines. Only 220 houses are not having any sanitation facility. The Municipality is maintaining 15 public toilets at different locations in the town.

SOLIDWASTE DISPOSAL:

10.4.3 The Municipality is maintaining one compost yard with an extent of 0.40 hectare on the eastern part of the town. At present the generation of solid waste is 15 tones / day and the total collection is only 7 tones / day.

10.5.7 The town has one T.B. maintained by state PWD & 3 private lodges.

CHAPTER – XI

TRAFFIC AND TRANSPORTATION

INTRODUCTION

11.01. An efficient road net work is the back bone of any economic activity in a town. Such system is capable of attracting development to a place both in economic and social aspects. A proper transport system is essential which would clearly effect the needs of the community at the minimum cost and offering maximum utilization.

ROAD NET WORK

11.02. The road net work in the planning area can be divided in to

1. Roads belonging to National High Ways.
2. Road belonging to State High Way and
3. Road belonging to Municipality.

ROADS CONTROLLED BY NATIONAL HIGHWAYS

11.03. There are two National Highways passing through Ranipet town which are (1) Chennai – Mumabi Road (NH 4) (2) Ranipet Krishnagiri Road (NH 46). The Chennai – Mumbai road enters the town on the East, runs towards West and takes a diversion towards northwest near Juvenile School. The total length of NH 4 with in Ranipet town is 3.84 kms. The Ranipet – Krishnagiri road (NH 46) branches at Muthukadai Junction. This runs north south for a length of 1.07 kms with in the town. In addition NH 46 bye pass branches at eastern boundary of the town and runs Northeast to Southwest and joins NH 46 near Palar River. The length of bye pass with in the town is 1.82 kms.

ROADS CONTROLLED BY STATE HIGHWAYS DEPARTMENT

11.04. There are three Highways road lies with in the town. The Ranipet Sholingur road orgainating from Ranipet at Muthukadai junction and running towards north to a length of 1.24 kms. The Kellys road runs north – south parallel and west to Ranipet – Krishnagiri road runs to a length of 1.17 kms. The reading rooms road (Gandhi Road) runs east to west to a length of 0.60 kms. This branches from Ranipet Krishnagiri Road at east and join Vandipetai Road at West.

ROADS CONTROLLED BY MUNICIPALITY

11.05. The Municipality is maintaining 50.487 kms. roads with in the town. The categories of roads maintained by the Municipality are given in table No.1.22

TABLE NO.1.22
DETAILS OF MUNICIPAL ROADS

Sl.No.	Type of Road	Length in Km
1	Concrete Road	11.065
2	Tar Road	28.247
3	Metal Road	13.304
4	Earthern Road	8.065
	Total	50.487 Kms

BUS FACILITIES:

11.06. The main transportation system in the town at present is the buses operated by Government corporation and few private companies. Bus facilities are available to various places. Town bus service are also available to the surrounding villages up to a distances of 35 km.

BUS STAND

- 11.07. The bus stand constructed under IDSMT project at an estimated cost of Rs.22.20 lakhs is not being effectively used, and buses are being parked on the road leading to haphazard vehicular and pedestrian movements with attendant traffic hazards.

TRUCK TERMINAL

- 11.08. The truck terminal constructed under IDSMT Project at an estimated cost of Rs.5.80 lakhs is used very sparingly due to lack of facilities viz-lorry booking office, service station, Rest room for drivers, restaurant etc. But there is intense parking activity on all major roads particularly at Muthukadai junction due to location of Commercial tax office at the junction.

TRAFFIC PROBLEMS

- 11.09. The major problems in the town is the lack of traffic discipline, indiscriminate parking and absence of pedestrian facilities and traffic control measures.

Indiscriminate encroachment are observed particularly at road intersections resulting in traffic congestion and potential traffic hazards.

The stretch of Chennai – Bangalore road lying within Ranipet Municipal limit is very narrow and is unable to cope with the high intensity of traffic.

The general conditions of all major roads are not satisfactory and needs immediate attention.

Some of the major intersections carrying high volumes of traffic needs to be improved to provide better turning radius increased approach width and better pedestrian facilities like foot path, pedestrian crossings and guard rails.

PART-II
PROPOSED DEVELOPMENTS

CHAPTER XII

FUNCTION AND ECONOMIC BASE

12.01 The secondary and tertiary activities are main functions of Ranipet town. This town can be considered as a Bi-functional Town. Further this town is part of Arcot Urban Agglomerations and they serve as service center with an influential area of the entire Walajapet and Arcot Taluks. the main economic base of the town is manufacturing industries. Finished leather and leather products are exported to foreign countries which earn Rs.300 Crores as foreign exchange besides above industries Parry & Co., Ranipet SIPCOT Industrial complex and BHEL Provides employment opportunities. Due to complete ban improved by the Government for starting Red type industries in this town, there will not be much employment opportunities in future.

POPULATION:

12.02 The Population of the Ranipet Local Planning Area based and part growth trends is projected for the Planning period. Indifferent methods and is given in Table – 201.

Table No.201 Populations projection for the year 2001 and 2011 Ranipet Planning Area.

Sl.No.	Method	Estimated Population	
		2001	2011
1	Arithmetical Progress in Method	48493	54403
2	Geometrical in Increase method	52607	64990
3	Incremental in Increase method	49353	56123

on the basis of projections it may be estimated Table in 2011 the population of Ranipet will be 54403, 64990 and 56123 respectively by the above methods. Incremental increase method is chosen in fixing of further Population i.e. 56000 in arriving at the estimated population. The development of layout by the Housing Board in Arcot and Sekarajapuram near BHEL and Development of SIPCOT industrial complex adjacent to Ranipet has also to be accounted considering the above facts fixing of 60000 by 2011 will be reasonable and safety assumption.

OCCUPATIONAL PATTERN

12.03 Total workers of the town in 1991 is 12038. The percentage of workers, to the total workers engaged in Agriculture activities is 5.18% and in Non Agriculture activities is 94.12% The non Agriculture activities are visible seen in the Town. These activities will continuous to dominate in future decade also. In the past 17 years (Between 1983 to 2000) nearly 40 Hectares of agriculture land has been put into non Agriculture use (i.e. urban use). The same trend shall continue for the future decade also.

12.04 Inview of these existing state of affairs in 2011, the works engaged in Agriculture sector and Non Agriculture sectors are assumed as 3% and 97% of workers for the planning period. The details are given below.

TABLE NO.2.22
PERCENTAGE OF WORKERS IN AGRICULTURAL AND NON
AGRICULTURAL ACTIVITIES

Sl. No.	Sector	Percentage of Actual 1981	Works to Actual 1991	Total Workers Assumed 2011
1	Agriculture	8.90	5.18	3.00
2	Non Agriculture	91.10	94.12	97.00
		100.00	100.00	100.00

The percentage of workers to the Population is 28.35 in 1981 and 28.26 in 1991. Due to increase in economic activities in the Social setup, it is antiapated that in the Planning period 2011 about 30% of the population will be working force the anticipated works will be 18000.

REQUIREMENTS OF LAND FOR VARIOUS USESES

12.05 The spartial distribution of land for the various urban uses have to be calculated taking in to consideration of the needs of the future population and of the past experience.

12.06 In the approved master plan 1996 a total of 677.13 Hectares has been allocated to different uses for the planning period 2001. The details of land allocated to various uses and the existing land use as on 2000 are given in table 2.03.

	Total	242.38	609.63	852.01	100.00

+ Includes Roads, Street and Lanes.

RESIDENTIAL AND HOUSING

12.13 The land under this use as present is 257.99 hectares, (Including Roads, Lanes) To accommodate the anticipated population in 2011, the land under this has been increased to 325.28 hectares .

12.14 The number of house holds and houses in Ranipet local Planning area as per 1991, census are 7954 and 8274 respectively the present shortage of houses works out to be 320. Assuming a house hold size 5.14, the projected number of households in 2011 is 11673. The total additional housing requirement at the end of Planning period is 3720 in addition to this assuming 5% of houses have to be replace, the total houses shortage for 2011 will be nearly 4120 during 1991 to 2000 nearly 1750 have been constructed and added to the existing stock. So the housing shortage for the end of Planning period will be in the order of 2370. Assuming the existing trend is centunned, anothers 2000 house will be added at the end of plan period by the privates agencies and remaining can be met by public agencies like Housing Board.

COMMERCIAL

12.15 The commercial use which includes Bus stand, markets, Shops, cinema theaters and Kalyana Mandapams occupies 13.19 hectares. Now allocation for commercial area has been considerably increased to 34.95 hectares as the town employees 40% of it workers in tertiary sectors.

INDUSTRIAL

12.16 As there is a completion been imposed by the Government for starting Red type industries these may not be much demand for industrial land in this town. The pocket of vacant land available with in the industrial land has been earmarked for industrial use.

EDUCATIONAL

12.17 As there is no demand for Educational institution at the end of Plan period. Hence, no additional area has been provided for this use.

PUBLIC AND SEMI PUBLIC

12.18 As there is enough area is available for Public use in this Town. Hence, no additional area has been provided for this use.

AGRICULTURAL USE

12.19 An extent of 51.51 hectares is reserved under agriculture use zone. this area includes wet lands, part of dry land, park, burial grounds etc.,

UTILITIES AND SERVICES WATER SUPPLY

12.20 The existing water supply system is enough for the Plan period. However, it has to be stabilised by constructing one more elevated reservoir in Navalpur area.

DRAINAGE

- 12.21 The side drains have to be constructed for the uncovered of newly developing areas. The possibility of providing unclear ground drainage facility is remote in this town in the near future so, infuture the house owners save to be instructed to provide their own W.C with Septic Tank which approving the building Plan.

COMPOST YARD

- 12.22 The compost yard at present is located in the middle of the town. This have to be shifted to out side of this town.

BURIAL GROUNDS

- 12.23 The burial grounds require improvement and this can be taken up in a plased man

CHAPTER – XIII

PROJECTS AND IMPLEMENTATIONS

- 13.01. The following projects have been indentified for the plan period 2011. These projects have to be implemented in a phased manner. This is only an indication detailed design and financial aspects have to be worked out at the time of finalisation of projects.

RESIDENTIAL DEVELOPMENT

- 13.02. The Ranipet can be considered as Bi functional Town since the secondary and teritiary activities are the main functions. hence, 38.19% of the area have been proposed for residential development. Already five Detailed Development Plans have been prepared and approved under T & CP ACT 1971. These Detailed Development Plans have to be implemented in a phased manner according to the demand.

HOUSING

- 13.03. To provide one house for one house hold, there is a need to provide 3750 houses at the end of Man period (2011). During the last 10 years. The Municipality has issued 1750 building licences and the Ranipet housing society has provided housing loan to nearly about 1750 applicants. If the same trend is continued, there will not be any housing shortage in this Town at the end of Plan period.

SLUMS

13.04. There are Nine slums with in the town. These slum areas has been developed under National Slum Area development programme and Urban basic service programme during the last 4 years. If there is any deficiency in services in the said areas the same may be completed in a phased manner during the coming years.

INDUSTRIES

13.05. The town is famous for tanneries and other connected industries. During the last 10 years 53 industrial license has been issued by the local body, out of which only six industrial license has been issued during the last 6 years due complete ban imposed by the court and the in Government for starting red type industries from the embankment of Palar river. There are pockets of lands are available near by the tanneries and they cannot be used for any other purpose except industrial use. Hence, some special effort can be taken to start shoe making and other allied industries connected with tanneries in the town.

COMMERCIAL PROJECTS

13.06. I. A considerable portion of income of the municipality is derived from the weekly shandy. Hence in order to improve the same it is proposed to take up the following projects at an estimated cost of Rs.17.00 Lakhs.

- a) Construction of open type stalls and shops around weekly shandy (34 Nos)
- b) Construction of 6 nos shops in G&FF facing RR Road.

ABSTRACT

TOWN PLANNING – Preparation of zonal plans - Formulation of Draft regulations submitted by the Director of Town and Country Planning – Approved.

RURAL DEVELOPMENT AND LOCAL ADMINISTRATION DEPARTMENT

G.O.Ms.No.1730

Dated the 24th July, 1974,
Read:

1. G.O. Letter No.28332/MD/73-1, RD & LA., Dt. 7.3.73.
2. From the Director of Town & Country Planning, letter No.10989/73/SM dated 21.03.74.
3. From the Member Secretary, Madras Metropolitan Development Authority, D.O. Letter No.1983/74 AD.P Dt. 19.5.74.

ORDER

The Director of Town and Country Planning submitted draft zoning regulations on use of land and building particulars in urban areas. These regulations list out the uses permissible in each of the use zones and the restrictions to be imposed, For the purpose of these regulations, it has been suggested that the urban areas may be divided into the following six major use Zones:-

1. Residential use zone
2. Commercial use zone
3. Industrial use zone
4. Educational use zone
5. Public and Semi Public use zone
6. Agricultural use Zone.

of these, the Residential use zone has been further sub-divided, into two categories namely:-

1. Primary Residential use zone and
2. Mixed residential use zone.

The Industrial Use Zone has been similarly sub-divided into three categories namely:-

1. Controlled Industrial Use Zone,
2. General Industrial Use Zone, and

3. Industrial Use
4. Special Industrial and Hazardous Use Zone.

2. The Director has also stated that the Tamil Nadu Town and Country Planning Act, 1971 provides for the zoning of areas under Section 17(1) and 20(2) (g) through the Master Plans and detailed development plans respectively. He has recommended that he draft zoning regulations may be approved and communicated to the Local Planning Authorities for adoption as part of the Master Plan for proper land use planning and control in addition to other regulatory measures, and that as for the Madras Metropolitan Area, a copy of the regulations may be sent to the Member Secretary, Madras Metropolitan Development Authority for adoption as part of the Metropolitan Development Plan with such modification as may be necessary, in consultation with him (the Director) and the Government.

3. A copy of the draft regulations was sent to the Member Secretary, Madras Metropolitan Development Authority for his views. He has stated that the comprehensive land use proposals and zoning regulations for Madras Metropolitan Area are under preparation and that the suggestion of the Town Planning Directorate will be considered and incorporated to the extent as may be necessary in the final proposals.

4. The Government have examined the suggestion. They accept the views of the Member Secretary, Madras Metropolitan Development Authority so far as it relates to the Madras Metropolitan Area and, as for other Urban Areas of the State, the Government approve in principle, the draft zoning regulation submitted by the Director of Town and Country Planning. The Director is requested to furnish copies of the draft zoning Regulations to the Local Planning Authorities as soon as they are constituted.

5. The receipt of this order may be acknowledged by the Director of Town and Country Planning.

- (1) G.O.Ms.No. 1 Environment Control dated 6-2-84
- (2) From the Member – Secretary, Tamil Nadu Pollution Control Board Lr.No.BMS (1) 15878/88, DT. 23-8-88
- (3) From the Chairman, Tamil Nadu Pollution Control Board Lr.BMS(1) 44365/88 dt. 3-11-88 and letter of even No. dated 30-12-88

ORDER:

In the Government Order first read above, the Government have ordered, among other things, that no industry causing serious water pollution should be permitted within one kilometer from the embankments of rivers, streams, dams, etc., and that the Tamil Nadu Pollution Control Board should furnish a list of such industries to all local bodies. It has been suggested that it is necessary to have a sharper definition for water sources so that ephemeral water collections like rain water ponds, drains, sewerages (bio-degradable) etc., may be excluded from the purview of the above order. The Chairman, Tamil Nadu Pollution Control Board has stated that the scope of the Government Order may be restricted to reservoirs, rivers and public drinking water sources. He has also stated that there should be a complete ban on location of highly polluting industries within 1 kilometer of certain water sources.

2. The Government have carefully examined the above suggestions. The Government impose a total ban on the setting up of the highly polluting industries mentioned in Annexure - I to this order within one kilometer from the embankments of the water sources mentioned in Annexure - II to this order.

3. The Government also direct that under any circumstances if any highly polluting industry is proposed to be set up within one kilometer from the embankments of water sources other than those mentioned in Annexure - II to this order, the Tamil Nadu Pollution Control Board should examine the case and obtain the approval of the Government for it.

4. The receipt of the order may be acknowledged.
